done in configuration are immediately followed by their effect on the transactions thereby making the learning relational in real time for better understanding From the user s perspective not much from the subject has been left out in writing this manual and every effort has been taken to keep it relevant to the execution of order processing and logistics functions of day to day working on SAP in an orderly flow This manual is really a result of many years of training both consultants and business users The author appreciates your comments and suggestions on improving this book If I can be of any assistance in helping you understand the subject better or obtaining access to the system on which it was written for easier understanding please feel free to drop in a mail to shefariaentinc gmail com
