Starclimber:

Starclimber Kenneth Opper,2009-10-06 Mr Cruse how high would you like to fly A smile soared across my face As high as I possibly can Pilot in training Matt Cruse and Kate de Vries expert on high altitude life forms are invited aboard the Starclimber a vessel that literally climbs its way into the cosmos Before they even set foot aboard the ship catastrophe strikes Kate announces she is engaged and not to Matt Despite this bombshell Matt and Kate embark on their journey into space but soon the ship is surrounded by strange and unsettling life forms and the crew is forced to combat devastating mechanical failure For Matt Kate and the entire crew of the Starclimber what began as an exciting race to the stars has now turned into a battle to save their lives Award winning and bestselling author Kenneth Opper brings us back to a rich world of flight and fantasy in this breathtaking new sequel to *Airborn* and *Skybreaker*

The Great Romance Inhabitant,2008-01-01 *The Great Romance* a two volume novella published under the pseudonym *The Inhabitant* was one of the outstanding late nineteenth century works of utopian science fiction Volume 1 was a possible model for Edward Bellamy's phenomenally successful *Looking Backward* while volume 2 was assumed lost for over a century until uncovered in the Hocken Library in Dunedin New Zealand Together these volumes represent a remarkable piece of science fiction writing as they proffer one of the first serious considerations of the colonization of other planets and the impact of human beings on an alien culture Here for the first time readers encounter descriptions of spacesuits and airlocks space shuttles and planetary rovers interplanetary colonization and cross species miscegenation Behind these genre defining elements is the story of John Hope who by means of a sleeping elixir awakes to a utopian community in a distant future a kingdom of thought where the struggle for existence has been eliminated and humanity operates under an unwritten law of civility and harmony aided by telekinesis that inerrantly reveals all wrong doers Since only two of the probably three volumes are extant the tale ends with a chilling cliffhanger In his introduction Dominic Alessio discusses the cutting edge aspects of this work and its significance in both the realm of science fiction and the history and culture of its day

Off the Main Sequence Tom Easton,2006-10-01 Tom Easton has served as the monthly book review columnist for *Analog Science Fiction* for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to *Periodic Stars* *Borgo Wildside* collects another 250 of Easton's best reviews
