Kidd, Joseph Thomas Jr., 2016-11-10 Children's book awards have mushroomed since the early twentieth century and especially since the 1960s when literary prizing became a favored strategy for both commercial promotion and canon making. There are over 300 awards for English language titles alone but despite the profound impact of children's book awards, scholars have paid relatively little attention to them. This book is the first scholarly volume devoted to the analysis of Anglophone children's book awards in historical and cultural context. With attention to both political and aesthetic concerns, the book offers original and diverse scholarship on prizing practices and their consequences in Australia, Canada, and especially the United States. Contributors offer both case studies of particular awards and analysis of broader trends in literary evaluation and elevation, drawing on theoretical work on canonization and cultural capital. Sections interrogate the complex and often unconscious ideological work of prizing, the ongoing tension between formalist awards and so-called identity-based awards, all the more urgent in light of the We Need Diverse Books campaign, the ever-morphing forms and parameters of prizing, and scholarly practices of prizing. Among the many awards discussed are the Pura Belpr Medal, the Inky Awards, the Canada Governor General Literary Award, the Printz Award, the Best Animated Feature Oscar, the Phoenix Award, and the John Newbery Medal, giving due attention to prizes for fiction as well as for non-fiction, poetry, and film. This volume will interest scholars in literary and cultural studies, social history, book history, sociology, education, library, and information science, and anyone concerned with children's literature.

Breaking Butterflies M. Anjelais, 2014-08-26 The closest he will ever come to happiness is when he's hurting her. Will she let him? A beautiful and twisted story of first love and innocence lost, written when the author was just eighteen. Sphinxie and Cadence promised to each other in childhood. Drawn together again as teens, Sphinxie is sweet, compassionate, and plain; Cadence is brilliant, charismatic, damaged, and diseased. When they were kids, he scarred her with a knife. Now, as his illness progresses, he becomes increasingly demanding. She wants to be loyal but fears for her life. Only the ultimate sacrifice will give this love an ending.

Flashes Tim O'Rourke, 2015-10-27 A brilliant detective thriller with a supernatural twist. Charley has visions, flashes of things she can't explain. A girl in trouble. The sound of trains. She feels certain they are clues to a crime. But no one will believe her. Until she meets Tom, a young policeman on his first case, an accidental death on the railway tracks, not far from where Charley lives. Was it an accident, suicide, or murder? The attraction between Charley and Tom is instant, but can they work together to find out what really happened on the tracks before it happens again.
