**Second Tolstoy** Steve Hickey, 2021-11-12 Very few if any have devoted more years to practicing and teaching others to practice the precepts of Jesus's Sermon on the Mount than Leo Tolstoy. He stands apart in the history of interpretation and has had enormous influence on others and other countries. Yet Gandhi or others often get the glory. Tolstoy is remembered as a great writer but his religious and philosophical works are by and large unknown or disparaged even in scholarly Tolstoyan circles. His contribution is substantially underappreciated and misunderstood. In *Second Tolstoy: The Sermon on the Mount as Theotactics*, Steve Hickey captures the particulars and dynamics of Tolstoy's interpretation of the Sermon on the Mount from a deliberately sympathetic vantage point. Underlying this project is shared belief with Tolstoy that the Sermon on the Mount is liveable and to be lived. While from the vantage point of traditional orthodoxy Tolstoy got much wrong, there remains a lack of appreciation for what he got right: radical obedience to the teachings of Jesus. A new vocabulary is proposed to more precisely capture Tolstoyan lived theology, namely the political and social expressions of Tolstoyan Christianity, with the hope that these theories and practices will gain a wider consideration, understanding, and following. **Chosen for Greatness**

Paul Batura, 2016-11-01 A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country. *The Lost World of Socialists at Europe's Margins*

Maria Todorova, 2020-09-03 Maria Todorova's book is devoted to the golden age of the socialist idea, broadly surveying the period in and around the time of the Second International. It critically examines the promise for an alternative socialist utopia from 1870 to the 1920s. Todorova brings in the experience of the periphery in a comparative context in the belief that the margins can often elucidate better the character of a phenomenon and deprovincialize it from essentialist notions. In doing so, *The Lost World of Socialists at Europe's Margins* moves beyond the traditional historiographical emphasis on ideology by looking at different intersections or entanglements of spaces, generations, genders, ideas, and feelings, and different flows of historical time. The study provides a social and cultural history of early socialism in Eastern Europe with an emphasis on Bulgaria, arguably the country with the earliest and strongest socialist movement in Southeast Europe and one that had a unique relationship to both German and Russian social democracy. Based on a rich prosopographical database of around 3500 biographies of people born in the 19th century, the book addresses the interplay of several generations of leftists, looking at the specifics of how ideas were generated, received, transferred, and transformed. Finally, the work investigates the intersection between subjectivity and memory as reflected in a unique cache of archival materials containing over 4000 documentary sources, including diaries, oral interviews, and unpublished memoirs. A microhistorical approach to this material allows the reconstruction of structures of feeling that inspired an exceptional group of individuals. **Liberalism or How to Turn Good Men into Whiners, Weenies and Wimps**

Burgess Owens, 2016-07-19 The black middle class saviors of the American way. *Liberalism or How to Turn Good Men into Whiners, Weenies and Wimps* documents the role of the 21 white self-avowed socialist, atheist, and

Marxist founders of the NAACP and their impact on the Black community's present status at the top of our nation's misery index. It highlights the decades of anti-Black legislation supported by liberal Black leaders who prioritized class over race in their zeal for the promises of socialism. Their anti-Black legislation dating back with the 1932 Davis Bacon Act continues today to suppress inter-community Black capitalism, federal construction-related Black employment work and job experience for Black teenagers, quality education access for urban Black children, and the role of Black men as leaders within the family unit. Liberalism or How to Turn Good Men into Whiners, Weenies, and Wimps highlights the strategy used in 1910 to inject the atheist ideology of socialism into a once enterprising, self-sufficient, competitive, and proud Christian Black community. A portion of that community, the conservative Black middle class, is positioned to pull our nation back from this abyss. Americans can ensure that the century-long sacrifice of lost hopes, dreams, and lives made by the proud, courageous, patriotic capitalist Christian-based, self-sufficient education-seeking Black community of the early 1900s was not in vain, but only if we choose to learn lessons from those past Black generations.

*The Entrepreneurial Instinct: How Everyone Has the Innate Ability to Start a Successful Small Business* Monica Mehta, 2012-08-21. Unlock your innate entrepreneurial talent. Winner of a 2013 Small Business Book Award, Startup Category. We've all heard stories of the dropout that makes billions, a triumph relying more on luck than skill, and never to be repeated. In real life, successful entrepreneurs take classes, write business plans, and map out every contingency. But if the stories are such a fluke, why do we hear them over and over again? In *The Entrepreneurial Instinct*, sought-after small business expert Monica Mehta looks past the rags-to-riches stories to explore the role of mind, behavior, and brain chemistry in our ability to be successful entrepreneurs. Interviews with entrepreneurs reveal the traits and habits that allow them to thrive. Groundbreaking insight from neuroscience and psychology experts uncovers the scientific explanations behind self-made mavericks, seemingly innate knack. More important, Mehta explains how you can use these discoveries to replicate their success by taking rewarding risks, overcoming fears, and failure, thriving in the face of ambiguity, using your innate talents to find financial independence, and make millions. *The Entrepreneurial Instinct* weaves together the incredible self-made stories of the founders of CLIF Bar, Carol's Daughter, Marquis, Jet, Skip Hop, KIPP Charter Schools, J Brand, Tahari, Apple, Paul Mitchell Systems, and Dogfish Head Beer. None of these anecdotes involves higher education, meticulous planning, or years of gathering seed money. These stories are about seemingly average people who possessed a keen understanding of how their minds worked and used that knowledge to their advantage. In a time when the prospect of unemployment or the loss of life savings is high, the need to seize control of your own destiny is greater than ever.
