2001 A Space Odyssey English Edition:

A History of Modern Computing, second edition Paul E. Ceruzzi, 2003-04-08 From the first digital computer to the dot com crash a story of individuals institutions and the forces that led to a series of dramatic transformations This engaging history covers modern computing from the development of the first electronic digital computer through the dot com crash The author concentrates on five key moments of transition the transformation of the computer in the late 1940s from a specialized scientific instrument to a commercial product the emergence of small systems in the late 1960s the beginning of personal computing in the 1970s the spread of networking after 1985 and in a chapter written for this edition the period 1995 2001 The new material focuses on the Microsoft antitrust suit the rise and fall of the dot coms and the advent of open source software particularly Linux Within the chronological narrative the book traces several overlapping threads the evolution of the computer s internal design the effect of economic trends and the Cold War the long term role of IBM as a player and as a target for upstart entrepreneurs the growth of software from a hidden element to a major character in the story of computing and the recurring issue of the place of information and computing in a democratic society The focus is on the United States though Europe and Japan enter the story at crucial points on computing per se rather than on applications such as artificial intelligence and on systems that were sold commercially and installed in quantities

Teams in Library Technical Services Rosann Bazirjian, Rebecca Mugridge, 2006-03-14 Whether because of budget and staffing concerns or issues with productivity and output technical services teams have come into being in many organizations In Teams in Library Technical Services editors Rosann Bazirjian and Rebecca Mugridge present research and case studies demonstrating what these reasons are and how the use of teams has been and should be applied to libraries Everything from describing the various types of teams and how to manage them especially in academic libraries to exploring recurring themes on the relationships between professional and support staff the changing roles of librarians and how managers and teams address issues such as performance evaluation rewards and recognition hiring workload and workflow and process improvements is covered Managers and other librarians who must understand the evolution of teams in library technical services units the application of team theory in libraries and the practical assessment of team organizational structure will be greatly served by this work
