2017 Severe Weather Awareness Poster Contest

**Dennis Del Favero, Susanne
Thurrow, Michael J. Ostwald, Ursula
Frohne**

2017 Severe Weather Awareness Poster Contest:

Climate Change Challenge: Adaptation to Climate Change Giuseppe Carrus, Chiara Massullo, Lorenza Tiberio, Christoph Steinebach, Lina Fusaro, 2025-10-24 Climate change is globally recognized among the most crucial if not the most crucial emergencies that human societies and the entire planet are facing in current times Accordingly notable efforts are being made at the political scientific and public opinion levels to counter global environmental change and in particular to lower the pace of global warming through a significant reduction of carbon emissions at the global level In this scenario psychological science can contribute not only to understand how human societies can shift from more to less carbon intensive but also to better understand how individuals groups and communities may adapt to ongoing global environmental change in their daily lives The Adaptation to climate change Research Topic involves processes of both assimilation and accommodation In both it serves optimal development under more difficult conditions Adaptation to climate change requires empirical research on the psychological aspects interdisciplinary dialogue with other sciences as well as reflection on the changed self image of psychology as a science and a profession Processes of adaptation can be found e g in the shift of focus from individual and community to environment from concepts and theories to measurement from more general and macro factors to micro factors from general to diverse impact from urban and rural to environmental factors from bouncing back to growth from segmented to an integrative approach Specifically for the Adaptation to Climate Change research topic the Topic Editors welcome themes such as Adaptation of perception General and special conditions of environmental perception Reorientation of education Shaping the social and physical environment to promote positive development Strengthening the sense of responsibility Conditions for environmentally friendly behaviour Realignment of intervention Environment as a specific means of promoting mental health Reshaping the environment Designing the environment to meet sustainable living conditions Any other related themes even if not specifically mentioned here will be welcome as well *Climate Disaster Preparedness* Dennis Del Favero, Susanne Thurow, Michael J. Ostwald, Ursula Frohne, 2024-05-02 As a result of global warming extreme events such as firestorms and flash floods pose increasingly unpredictable and uncertain existential threats taking lives destroying communities and wreaking havoc on habitats Current aesthetic technological and scientific frameworks struggle to imagine visualise and rehearse human interactions with these events hampering the development of proactive foresight readiness and response This open access book demonstrates how the latest advances in creative arts intelligent systems and climate science can be integrated and leveraged to transform the visualisation of extreme event scenarios It reframes current practice from passive perception of pre scripted illustrations to active immersion in evolving life like interactive scenarios that are geo located Drawing on the multidisciplinary expertise of leaders in the creative arts climate sciences environmental engineering and intelligent systems this book examines the ways in which climate disaster preparedness can be reformulated through practices that address dynamic and unforeseen interactions between climate and

human life worlds Grouped into four sections picturing narrating rehearsing and communicating this book maps this approach by exploring the emerging strengths and current limitations of each discipline in addressing the challenge of envisioning the unpredictable interaction of extreme events with human populations and environments This book provides a timely intervention into the global discourse on how art culture and technology can address climate disaster resilience It appeals to readers from multiple fields offering academic industry and community audiences novel insights into a profound gap in the current knowledge policy and action landscape *Books in Print* ,2005

Decoding **2017 Severe Weather Awareness Poster Contest**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
