Bitcoin for Boomers - Bitcoin for Seniors: Ditch the Debt, Ditch the Dollar, Discover Real Wealth Steve Stylz, 2025-10-25

The world we grew up in is gone. For decades, Baby Boomers believed in steady pensions, reliable savings, and the promise that Social Security would provide security in our later years. But those pillars are now crumbling under the weight of inflation, endless government debt, and a financial system that enriches the few while hollowing out the many. What once felt solid is now quicksand. Bitcoin for Boomers is not a get-rich-quick scheme or a technical manual. It is a roadmap to financial freedom in a time of great uncertainty. Written with Boomers in mind, this book strips away the jargon and fear, showing in plain language why Bitcoin is not just speculation but the most important form of money ever invented. It is scarce, incorruptible, and built for a future where individuals take back control of their wealth.

Mario Andretti: Over its seventy-plus years of history, Formula 1 racing has grown from a niche motorsport with just a few events per season into a global phenomenon followed by more than a billion fans. With just twenty drivers competing at speeds of over 220 miles per hour on more than twenty of the world's most glamorous and challenging racetracks, Formula 1 is the ultimate test of machine and humankind. On the Grid Luke Smith, 2025-02-13
On the Grid is incredibly special. I loved every thoughtfully written word. Will Buxton is one of the foremost journalists within the paddock. His book draws the curtain back on our sport. Very few titles have covered the stories of the unsung members of

the F1 community in this level of detail and with such vibrancy Toto Wolff Even if you think you know everything there is to know about Formula 1 you ll learn something within these pages GP Racing Formula 1 might only have twenty drivers in its most elite competition but each is supported by a world class team of mechanics engineers strategists party planners and much more In On the Grid journalist Luke Smith takes us behind the scenes of the past present and future of the sport telling its story through the eyes of the people who create it including the all important fans We see thrilling drama cutting edge technology the stress and the glamour Smith takes us to the starting grid full of engine fumes and sweat to yacht parties in Monaco and to the pit lane for the critical mid race decisions We see how a fifty pence screw in the wrong place could cause a 15m car to break down how F1 has influenced not just the cars we drive but life saving medical equipment and even croissants how you create a Grand Prix track from scratch On the Grid shows us what it s like to work in a high pressure and inherently dangerous sport showcases the personalities that give it such drama and intrigue examines how the sport is addressing its critics around inclusivity and environmental impact For both long time fans and newcomers what results is the definitive access all areas account of what makes F1 stand alone in world sport
