

# Organizational-Development Model

Wendell French and Cecil Bell list seven characteristics that separate OD from more traditional ways of intervening in organizations:

1. Emphasis on teamwork for addressing issues
2. Emphasis on group and intergroup processes
3. Use of action research
4. Emphasis on collaboration within the organizations
5. Realization that the organization's culture must be perceived as part of the total system
6. Realization that those in charge of the organization serve as consultants/facilitators
7. Appreciation of the organization's on-going dynamics within a continually changing environment.
