Up from Slavery; an Unfinished Journey Archie Morris III D.P.A.,2019-03-21 For a period of eighty five years the M Street Dunbar High School was an academically elite all black public high school in Washington DC As far back as 1899 its students came in first in citywide tests given in both black and white schools Over this eighty five year span approximately 80 percent of M Street Dunbar s graduates went on to college even though most Americans white or black did not attend college at all Faculty and students were mutually respectful to one another and disruptions in the classroom were not tolerated Yet in this era of best practices this public high school has received virtually no attention in the literature or in policy considerations for inner city education The Dunbar High School today with its new building and athletic facilities is just another ghetto school with abysmal standards and low test score results despite the District of Columbia s record of having some of the country s highest levels of money spent per pupil The purpose of this study is to explore the history of a high school that was successful in teaching black children from low income families and to determine if the learning model employed there could be successful in a modern inner city public education environment

American Crusade Benjamin J. Wetzel,2022-06-15 When is a war a holy crusade And when does theology cause Christians to condemn violence In American Crusade Benjamin Wetzel argues that the Civil War the Spanish American War and World War I shared a cultural meaning for white Protestant ministers in the United States who considered each conflict to be a modern day crusade American Crusade examines the holy war mentality prevalent between 1860 and 1920 juxtaposing mainline Protestant support for these wars with more hesitant religious voices Catholics German speaking Lutherans and African American Methodists The specific theologies and social locations of these more marginal denominations made their ministries highly critical of the crusading mentality Religious understandings of the nation both in support of and opposed to armed conflict played a major role in such ideological contestation Wetzel s book questions traditional periodizations and suggests that these three wars should be understood as a unit Grappling with the views of America s religious leaders supplemented by those of ordinary people American Crusade provides a fresh way of understanding the three major American wars of the late nineteenth and early twentieth centuries

Black Women of the Harlem Renaissance Era Lean'tin L. Bracks,Jessie Carney Smith,2014-10-16 The Harlem Renaissance is considered one of the most significant periods of creative and intellectual expression for African Americans Beginning as early as 1914 and lasting into the 1940s this era saw individuals reject the stereotypes of African Americans and confront the racist social political and economic ideas that denied them citizenship and access to the American Dream While the majority of recognized literary and artistic contributors to this period were black males African American women were also key contributors Black Women of the Harlem Renaissance Era profiles the most important figures of this cultural and intellectual movement Highlighting the accomplishments of black women who sought to create positive change after the end of WWI this reference work includes representatives not only from the literary scene but

also ActivistsActressesArtistsEducatorsEntrepreneursMusiciansPolitical leaders Scholars By acknowledging the women who played vital if not always recognized roles in this movement this book shows how their participation helped set the stage for the continued transformation of the black community well into the 1960s To fully realize the breadth of these contributions editors Lean tin L Bracks and Jessie Carney Smith have assembled profiles written by a number of accomplished academics and historians from across the country As such *Black Women of the Harlem Renaissance Era* will be of interest to scholars of women s studies African American studies and cultural history as well as students and anyone wishing to learn more about the women of this important era **Race, Ethnicity, Crime, and Justice** Akwasi Owusu-Bempah,Shaun

Gabbidon,2020-09-24 *Race Ethnicity Crime and Justice An International Dilemma* Second Edition takes a unique comparative approach to the exploration of race and ethnicity related justice issues in five countries around the world Using the colonial model as a theoretical lens Owusu Bempah and Gabbidon analyse data from Great Britain the United States Canada Australia and South Africa These international case studies help students contextualize race and justice issues within and across nations Concise historical framing illuminates today s racial dynamics in these diverse justice systems and accessible theory grounds the comparison of crime and justice data from the early 21st century with current statistics A new concluding chapter revisits the question of where these nations fit in the global context of state and non state actors and of ethnic and racial justice issues This new edition is suitable for use as a core or supplemental text for advanced undergraduates and early graduate courses on race and crime minorities and criminal justice diversity in criminal justice and comparative justice systems It is also appropriate for use in sociology and ethnic studies courses that focus on race and crime *Singing*

through Struggle Carolynne Hitter Brown,2025-04-21 *Singing through Struggle Music Worship and Identity in Postemancipation Black Churches* offers an innovative look at the vital role music and worship played in nurturing Black citizenship and identity during the Reconstruction era In such border cities as Baltimore Washington DC and Philadelphia the church was where newly emancipated migrants and members of the free Black community merged identities priorities and experiences through a process of cultural negotiation Music as a sign of Black achievement and as a genuine expression of identity produced both bastions and battlegrounds in the fight for democracy The music of Black churchgoers singing together in sanctuaries as well as in homes schools and outdoors expressed resistance to uplift ideologies within and to white supremacy without Even while using hymns and music of the European sacred tradition members infused the songs they chose with new meanings relevant to their evolving concerns and situations Drawing on fresh archival sources *Singing through Struggle* sheds light on the unexplored gap in the study of African American religious music between slavery and the Great Migration demonstrating the continuous stream of Black creativity and dignity that existed in religious music making between gospel music and the spirituals This close up investigation of three Black congregations draws out previously forgotten stories of men and women who understood church music as key to shaping a collective purpose and civic identity

Their stories demonstrate how faith music and ritual gave the Black community means for exploring a deeply complex and ever changing reality

Death and Other Penalties Lisa Guenther, Scott Zeman, 2015-04-01 Mass incarceration is one of the most pressing ethical and political issues of our time In this volume philosophers join activists and those incarcerated on death row to grapple with contemporary U S punishment practices and draw out critiques around questions of power identity justice and ethical responsibility This work takes shape against a backdrop of disturbing trends The United States incarcerates more of its own citizens than any other country in the world A disproportionate number of these prisoners are people of color and today a black man has a greater chance of going to prison than to college The United States is the only Western democracy to retain the death penalty even after decades of scholarship statistics and even legal decisions have depicted a deeply flawed system structured by racism and class oppression Motivated by a conviction that mass incarceration and state execution are among the most important ethical and political problems of our time the contributors to this volume come together from a diverse range of backgrounds to analyze critique and envision alternatives to the injustices of the U S prison system with recourse to deconstruction phenomenology critical race theory feminism queer theory and disability studies They engage with the hyper incarceration of people of color the incomplete abolition of slavery the exploitation of prisoners as workers and as raw material for the prison industrial complex the intensive confinement of prisoners in supermax units and the complexities of capital punishment in an age of abolition The resulting collection contributes to a growing intellectual and political resistance to the apparent inevitability of incarceration and state execution as responses to crime and to social inequalities It addresses both philosophers and activists who seek intellectual resources to contest the injustices of punishment in the United States

Ending Global Poverty Stephen C. Smith, 2015-03-17 Over 800 million people suffer from chronic hunger and over ten million children die each year from preventable causes These may seem like overwhelming statistics but as Stephen Smith shows in this call to arms global poverty is something that we can and should solve within our lifetimes Ending Global Poverty explores the various traps that keep people mired in poverty traps like poor nutrition illiteracy lack of access to health care and others and presents eight keys to escaping these traps Smith gives readers the tools they need to help people overcome poverty and to determine what approaches are most effective in fighting it For example celebrities in commercials who encourage viewers to adopt a poor child really seem to care but will sending money to these organizations do the most good Smith explains how to make an informed decision Grass roots programs and organizations are helping people gain the capabilities they need to escape from poverty and this book highlights many of the most promising of these strategies in some of the poorest countries in the world explaining what they do and what makes them effective
