**Antoni Gaudí** Jeremy Roe,2012-05-08 Spanish architect and designer Antoni Gaud 1852 1926 was an important and influential figure in the history of contemporary Spanish art His use of colour application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture In his journal Gaud freely expressed his own feelings on art the colours used in architecture have to be intense logical and fertile His completed works the Casa Batll 1905 1907 and the Casa Mil 1905 1910 and his incomplete works the restoration of the Poblet Monastery and the altarpiece of Alella in Barcelona illustrate the importance of this philosophy His furniture designs were conceived with the same philosophy as shown for example in his own office 1878 or the lamps in the Plaza Real in Barcelona The Sagrada Familia 1882 1926 was a monumental project which eventually took over his life it was still incomplete at the time of his death

**Essential Gaudí** Daniel Giralt-Miracle,2015-04-23 The work of Antoni Gaud continues to fascinate us today as it fascinated Eusebi G ell in 1878 during his visit to the Universal Exposition in Paris He was so struck by a glove display case he saw there that he determined to contact its unknown author a man to whom he would eventually entrust the design of no less than five hugely significant architectural projects Suffice to mention Sagrada Fam lia Gaud s last and most famous work which amazes visitors today as much as or more than it did in the early 20th century when its first four towers were just beginning to emerge But the mark of his genius in Barcelona Catalonia and Spain and even in the projects he never saw to fruition such as the skyscraper for Manhattan is far broader and more nuanced than is generally thought From El Capricho in Comillas to the schools at Sagrada Fam lia each building column piece of furniture and grille evokes the creativity of a privileged mind for architecture and design Daniel Giralt Miracle synthesizes in this easy to read book the essential aspects of Gaud s life his time his ideology and his methods at the same time as he summarises the most significant elements of each work focusing precisely on that which places him at the pinnacle of world architectural achievement This has not always been the case however In the same way as Gaud s oeuvre is still a work in progress we are unlikely to see Sagrada Fam lia in all its splendour until 2026 the centenary of his death its appreciation has evolved over time until the present day when the architect s exceptional work in ruled geometry can be explained better than ever through computerised design The book summarises this evolution and brings what we thought we knew about Gaud up to date with information that has come to light in recent years
