The primary aim of ECSM is to provide a platform for scholars, researchers, practitioners, and industry professionals to share and discuss their findings on the multifaceted impacts of social media. The conference emphasises the importance of understanding how social media influences various sectors, including society, education, business, and governance. *Beyond States and Spies* Lewis Sage-Passant, 2024-10-31. Scholars have long viewed intelligence as the preserve of nation states. Where the term private sector intelligence is used, the focus has been overwhelmingly on government contractors. As such, a crucial aspect of intelligence power has been overlooked: the

use of intelligence by corporations to navigate and influence the world Where there has been academic scrutiny of the field it is seen as a post 9 11 phenomenon and that a state monopoly of intelligence has been eroded Beyond States and Spies demonstrates through original research that such a monopoly never existed Private sector intelligence is at least as old as the organised intelligence activities of the nation state The book offers a comparative examination of private and public intelligence and makes a compelling case for understanding the dangers posed by unregulated intelligence in private hands Overall this casts new light on a hitherto under investigated academic space **How To Use Tik Tok** Cedric
