Double withdrawal

Both payments I made on Zelle yesterday were withdrawn from my account twice for some reason causing my bank to be overdrawn. The person I sent it to said they only received one notification of it being received but haven't been able to check if they have all the money yet. What should I do? Am I screwed if the recipient doesn't have the money from the double transfer?

Edit: the payment went to my s/o and it looks like based on her bank statements that she got two payments so I'm not sure if I should just ask her to send it back now or wait for them to sort it out
