Algebra and Trigonometry and Their Applications Larry J. Goldstein,1995-09 This textbook presents the teaching of
algebra and trigonometry from a traditional deductive point of view while making connections to other fields by using
applications as examples for applying concepts The text emphasizes technology as a tool to support mathematical discussions
It includes real applications to the fields that are studied motivating students and connecting what they learn with everyday
life Even and odd numbered exercises are paired in difficulty at the end of each section providing the instructor with
flexibility when assigning homework **Algebra and Trigonometry and Their Applications** Larry Goldstein,
