How To Study Public Life Jan Gehl:

How to Study Public Life Jan Gehl, Birgitte Svarre, 2013-12-04 How do we accommodate a growing urban population in a way that is sustainable equitable and inviting This question is becoming increasingly urgent to answer as we face diminishing fossil fuel resources and the effects of a changing climate while global cities continue to compete to be the most vibrant centers of culture knowledge and finance Jan Gehl has been examining this question since the 1960s when few urban designers or planners were thinking about designing cities for people But given the unpredictable complex and ephemeral nature of life in cities how can we best design public infrastructure vital to cities for getting from place to place or staying in place for human use Studying city life and understanding the factors that encourage or discourage use is the key to designing inviting public space In *How to Study Public Life* Jan Gehl and Birgitte Svarre draw from their combined experience of over 50 years to provide a history of public life study as well as methods and tools necessary to recapture city life as an important planning dimension This type of systematic study began in earnest in the 1960s when several researchers and journalists on different continents criticized urban planning for having forgotten life in the city City life studies provide knowledge about human behavior in the built environment in an attempt to put it on an equal footing with knowledge about urban elements such as buildings and transport systems Studies can be used as input in the decision making process as part of overall planning or in designing individual projects such as streets squares or parks The original goal is still the goal today to recapture city life as an important planning dimension Anyone interested in improving city life will find inspiration tools and examples in this invaluable guide

Architectural Research Addressing Societal Challenges Manuel Jorge Rodrigues Couceiro da Costa, Filipa Roseta, Joana Pestana Lages, Susana Couceiro da Costa, 2019-08-08 The escalating interdependency of nations drives global geopolitics to shift ever more quickly Societies seem unable to control any change that affects their cities whether positively or negatively Challenges are global but solutions need to be implemented locally How can architectural research contribute to the future of our changing society How has it contributed in the past The theme of the 10th EAAE ARCC International

Conference Architectural Research Addressing Societal Challenges was set to address these questions This book Architectural Research Addressing Societal Challenges includes reviewed papers presented in June 2016 at the 10th EAAE ARCC International Conference which was held at the facilities of the Faculty of Architecture of the University of Lisbon The papers have been further divided into the following five sub themes a Changing Society In Transit Global Migration Renaturalization of the City Emerging Fields of Architectural Practice and Research on Architectural Education The EAAE ARCC International Conference held under the aegis of the EAAE and of the ARCC is a conference organized every other year in collaboration with one of the member schools universities of those associations alternatively in North America or in Europe

Architecture and Welfare Thordis Arrhenius, Ellen Braae, Guttorm Ruud, 2025-01-27 Architecture was fundamental to the realization of welfare state policy in the Nordic countries translating democratic ideals into concrete spatial materializations An inclusive notion of welfare for all was embraced by a generation of architects landscape architects and planners who labored to give physical form to ideas of equality collectivity and democracy producing a vast architectural output in Scandinavia during the postwar years Today however the architectural legacy of this era is contested Welfare for all no longer enjoys the social or political consensus it once did This publication critically engages with this contested architectural legacy and provides a nuanced portrait of postwar welfare architecture coming to terms with a contentious past and facing an uncertain future With newly commissioned photographic work by contemporary Nordic artists Based on an interdisciplinary research project by KTH Stockholm Oslo School of Architecture University of Copenhagen Internationally renown contributors shed light on aspects of the relationship between architecture and welfare

Public Space & Public Life in Central Stockholm Jan Gehl,1991

Universal Singular Sonia Curnier,2022-11-21 A critical introduction to the design of public spaces The way public spaces are designed reflects the period in which they were created However in our globalized world of experience and images the desire for uniqueness tends to achieve the opposite increasingly designers of open spaces resort to the same devices and thereby distance themselves from the urban context The author analyzes ten outstanding contemporary designs of public spaces in Europe in terms of their function in the urban context and what materials are used for their implementation In interviews with the designers she retraces the changes of the concepts during the design stage of the projects underpinning her findings with numerous sketches In addition her research focuses on how the projects were received in the community Learning from designers of outstanding public spaces in Europe Numerous unpublished design sketches A clear guide to urban design Also available in a French edition

Innovations in Green Urbanization and Alternative Renewable Energy Federica Rosso,Donato Morea,Didit Okta Pribadi,2022-10-19 This book thoroughly examines the aims of green urbanism providing a perspective to help responding to the growing environmental challenges posed by the enormous increase in human needs The book gives insights about architectural intervention in urban planning which provides green design strategies in a way that improves the efficiency of building in terms of energy consumption and environmental conservation The book also gives attention to the paradigm of the intermediate city thus helping in overcoming the challenges posed by the growing urbanization process Finally the book gives a futuristic vision of cities anticipating their challenges and providing possible solutions for them The book targets a wide audience interested in implementing the SDG goals in energy and green urban planning and those interested the interdisciplinary nature of green urbanization and alternative and renewable energy accommodates The book is a culmination of selected research papers from the 4th version of the International Online Conference on Green Urbanism GU of Roma Tre University Italy 2020 the

new ways of viewing urban areas and how they develop over time Peter Bosselmann offers a stimulating guidebook for
students and professionals engaged in urban design planning and architecture By looking through Bosselmann s eyes aided
by his analysis of numerous color photos and illustrations readers will learn to see cities anew His hope is that with the fresh
vision he offers readers will be empowered to offer inventive new solutions to familiar urban problems *International

Library,1994 *Urban Design Interventions in Inner San Francisco* Simone Le Grange,2004 *Transforming Cities* Nick
Corbett,2004 Cities can be transformed by better quality public space and *Revival in the Square* explains how to do it In a
clear and accessible way it provides an insight into how design strategies for public spaces can revive our cities The book is
based on real experience and provides an effective bridge between strategy and action on the ground Endorsed by Richard
Rogers international architect and chief adviser to the Mayor of London and by Jon Rouse chief executive of the Housing
Corporation *Revival in the Square* is highly relevant to anyone interested in the role of public squares in urban regeneration
The book demonstrates how uncluttered and joined up public spaces can be built to promote civic values and commercial
competitiveness and how squares can bring people together for a more positive shared experience of urban living It gives
practical guidance on creating the high quality public space that is required for an urban renaissance Fully illustrated
throughout with international examples of best practice *Revival in the Square* is an important contribution that links strategy
and design to the delivery of a better built environment *Revival in the Square* demonstrates how the city square has always
been at the heart of public urban life In today s world as cities compete in the global market place their image and quality of
life are increasingly important Governments around the world are encouraging city authorities to work with the private
sector to invest in regeneration and urban design and new city squares are providing a focus for this activity The various
governmental professional and commercial organizations involved with the design development and management of public
space have traditionally been divided into separate disciplines resulting in a fragmented system characterized by
communication gaps between the main stakeholders *Transforming Cities* *Revival in the Square* explains how to close the
gaps through strategic leadership management and high quality design all helping the delivery of an urban renaissance The
book has two main themes Firstly it is about how the decision making infrastructure can be improved secondly it is about the
physical design and management required to create and maintain sustainable public spaces The book shows that if people
are to be aware of the complexity and variety of the society they are a part of and if they are to appreciate notions of civic
identity and respect for others there must be a place they can occasionally see and experience a diverse cross section of that

society and this is one of the key functions of the city square
