The Alibaba Group Yi Guo,2016 By July of 2011 Yun Jack Ma had achieved his goal of creating one of the world's leading e-commerce companies Ma founded the Alibaba Group and took advantage of growing internet usage in China to launch the leading B2B C2C and B2C sites in the country and capture a huge market Despite his success Ma had a troubled relationship with Yahoo the largest investor in the Alibaba Group Ma's decision in January of 2011 to transfer Alipay the Alibaba Group's online payment unit from the Alibaba Group to a company under his personal control was just making matters worse When Ma founded Alibaba.com in 1999 he faced competition from a number of other Chinese B2B web portals This case study discusses this topic **Alibaba Group's Taobao** Peter J. Williamson,Michelle Wang Jingji,2016 This case explores how Alibaba Group has nurtured the creation of a business ecosystem to underpin the success of its Taobao Marketplace and Tmall.com e-commerce businesses that have come to dominate online shopping in China **The Alibaba Group and its impact on the world's e-commerce** ,2017-04-21 Seminar paper from the year 2014 in the subject Business economics Trade and Distribution grade 1 4 Reutlingen University language English abstract Although everybody has heard about the cyber giant Alibaba the majority is not familiar with the company's business therefore this paper concentrates on giving some insights about the real impact of the Alibaba group Firstly the paper elucidates the company's structure and its latest actions especially the acquisitions in the ASEAN countries secondly the paper analyses the meaning of its IPO as well as the company's impact on the overall economy focusing especially on Alibaba's strengths and weaknesses finally the paper concludes whether the news are over or underestimating the power of Alibaba it answers if Alibaba actually have an influence on us and what additional value proposition Alibaba has aside from being a Chinese version of Amazon **Alibaba Group** Chenyuan Fu,2016 **Can Alibaba Achieve Large-Scale Sustainable Success in the American E-Commerce Market?** Hannah Müller,2019-07-10 Case Study from the year 2019 in the subject Business economics Operations Research grade 1 8 Reutlingen University language English abstract This paper is a case study about Alibaba entering the US e-commerce market Can Alibaba make large scale sustainable success in the American e-commerce market Or is the industry not attractive and the market saturated Alibaba provides technology infrastructure and marketing to help merchants brands and businesses to leverage the power of new technology to engage with their customers The Alibaba Group was founded in 1999 by Jack Ma and 17 other people Alibaba was originally founded as a B2B e-commerce portal to connect Chinese manufacturers with overseas buyers Nowadays Alibaba ranks in the Top Ten companies in terms of market value Most of the credit goes to Ma himself because he utilized the first mover advantage and successfully planned entrepreneurial growth and corporate initiatives Looking back Ma has traveled more than 800 hours to dozens of countries to meet business leaders and state representatives to convince them of Alibaba's aim to let small and medium businesses SMEs from all parts of the world

trade freely and securely on Alibaba's platforms. The company's vision is to achieve 1 trillion in gross merchandise by 2020 and to serve two billion customers by 2036. To achieve this, global operations are key, and experts propose globalization is better done now than later. Alibaba is currently experiencing high competitive pressure in China and will need to conquer new territories to continue on its current trajectory. Needless to say, entry into the US market will not only be difficult but also require premium strategic decisions with little to no room for errors.

Alibaba Group Julie M. Wulf, 2010 **Alibaba's World** Porter Erisman, 2015-05-12 A former VP at Alibaba Group and creator of a documentary about its origins offers an inside glimpse at the behemoth that's poised to transform the e-commerce world. *Tmall, the Sky Cat* Chuck Munson, 2013

Emergence of the Alibaba Business Ecosystem Giana Töngi, 2020 The concept of the Business Ecosystem, which is based on the existence of an orchestrator and the cooperation of various partnerships across industries, has proven itself not only as a young theoretical discipline but also in practice. Companies such as the Chinese Alibaba Group, which was founded in 1999 by Jack Ma, have recognized that through cooperation a greater value proposition can be offered to the customer. For this reason, Alibaba has improved its original core business of e-commerce and expanded into other industries such as financial services, logistics, and health care. By understanding the customer's movements within different business fields, Alibaba can collect, process, and analyze significant amounts of data relating to their everyday behavior. This allows for the company to offer individualized products and services. This work investigates as a case study how Alibaba has developed since its foundation, how its highly complex Business Ecosystem has evolved, and how Alibaba might develop in the future. The main focus is on the analysis of the interactions between the Alibaba-owned companies and its external partners. As a result, the Alibaba case analysis shows that many separate co-existing Business Ecosystems are embedded within the whole Alibaba Business Ecosystem. A total of five such separate Business Ecosystems are presented in this master thesis, and their relative functions are explained. These are Alibaba's FinTech, logistics, e-commerce, new retail, and consumer-centric ecosystems. As a result of this analysis, it was shown that Alibaba has partnerships that are very important for the existence of the ecosystem, but also on the other hand that some of their exits are negligible. Furthermore, even though the Alibaba Business Ecosystem is open to everyone, there still exist some exclusions and restrictions once someone is locked in to this Business Ecosystem.
