This type of research is often used in schools, businesses, and non-profit organizations as they strive to address and resolve questions that will impact their organizations. *Applied Social Science Approaches to Mixed Methods Research* is an academic research publication that examines more traditional and common research methods and how they can be complimented through qualitative counterparts. It is essential for researchers, academicians, non-profit professionals, business professionals, and higher education faculty and specifically targets master or doctoral students committed to writing their theses, dissertations, or scholarly articles who may not have had the benefit of working on a traditional research team.
