Teach Your Child to Read English Vocabulary Worksheets Stephanie Tingle,2021-01-20 It s

critical to teach your child to memorize sight words as a whole so that they can recognize them immediately within 3 seconds without having to use any strategies to decode them And teaching sight words not only helps kids read more fluently it helps them write more efficiently too The Dolch Sight Words list is the most commonly used set of sight words This workbook provides 220 service words plus 95 high frequency nouns These words comprise 80% of the words you would find in a typical children s book and 50% of the words found in writing for adults Once your child knows this list of words it makes reading much easier because the child can then focus his or her attention on the remaining words The Dolch words are commonly divided into groups by grade level ranging from pre kindergarten to third grade with a separate list of nouns There are a total of 315 Dolch Sight Words *Sight Word Readers* Kita book,2017-11-23 Sight word acquisition is an important building block in the construction of a child s ability to read Once she is able to read all of the words on Dolch s lists for example she has access to up to 75% of what is printed in almost any piece of children s literature How exactly do teachers and parents help children develop their stores of sight words There are several proven techniques that any adult can use to teach sight words Whichever strategies are employed the best success is seen when one adult with a small number of children at a time The more one on one time a child has learning and practicing sight words with an adult the greater his chances to integrating them into his long term memory Teaching Sight Words With Pictures Many learners think in pictures Whether we realize it or not we often visualize what we are attempting to learn to help solidify the information in our memories Think about the last time you needed to get somewhere you hadn t been before Even if you used written directions instead of a pictorial map you probably had a number of visual markers such as unusual sights or signs to help you learn how to get there Presenting children with illustrations of sight words along with their print versions helps them make important connections between the object and the word Flashcards or posters with a colorful picture and the word written under it are excellent sight word teaching tools In addition teachers or parents can have children draw their own pictures of each word on the same page to help them link the print with the visual Listening to and Saying Sight Words Sight words are not only frequently used in writing they are also essential to conversational English Because most of the Dolch sight words are already in children s verbal vocabularies learning to read them is simply a matter of connecting the print word to the oral version in their prior knowledge banks Parents and teachers should make explicit connections between the print version of a word and its sound Pointing to a word while repeating it is one way to do this Also adults should have children say the sight words to help them become actively involved in their learning This can be as simple as asking them to repeat a sight word while writing it or as involved as having the child search through a pile of sight words written on index cards or sentence strips to find a word that best completes a sentence you have written Teaching Sight Words Through Repetition Children do not learn new words by being exposed to them only once Repetition is key to sight word acquisition Young readers should be given opportunities to read and write a new sight word multiple times Repetitive reading of texts featuring certain sight words is

one strategy for helping children commit these words to memory Also to practice spelling sight words parents and teachers can have children write and say aloud words several times When a child writes and says the word at least five times in a row she is more likely to commit it to memory To subtly help children mentally repeat sight words parents or teachers can create Dolch word walls As a new sight word is learned it is written in large print on a sentence strip or piece of paper and hung up on the wall in a location where the child is likely to see it often Not only will repetitive glancing at the word reinforce it in the child s memory it is also easily accessible for the parent or teacher to refer to when talking with the child about it Sight Words in Context When children see words used in natural ways rather than in isolation they are more likely to remember them because they develop an understanding of the word s significance and meaning The ebook has 50 sight word phrases with lovely pictures Wish your parents a happy fruitful time with their dear children **300+ Colorful Sight Words Flash Cards 123 Easy Step! the sight words Sight Word Mania is a color coded reading series made up of 100% sight words Each book introduces 12 new sight words with charming tales about best friends Jay and Kay The stories are followed by worksheets filled with fun activities to reinforce recognition of the 12 newly introduced words So don't just read flash cards see the sight words in context and read a story instead *Sight Words 100+ High-frequency Sight Words* Tanya Costa, 2018-01-28 Sight Words is a beautiful illustrated book that allows children to practice their knowledge of sight words Kids have to read the sight word or parent and then find its corresponding image in the fun illustrations Simply read the word at the bottom of the book and then find it in the picture About Sight Words Sight Words are words that are recognized immediately on sight without phonetically decoding or sounding out parts Sight words often also called high frequency sight words are commonly used words that young children are encouraged to memorize as a whole by sight so that they can automatically recognize these words in print without having to use any strategies to decode Sight words account for a large percentage up to 75% of the words used in beginning children's print materials The advantage for children being able to recognize sight words automatically is that a beginning reader will be able to identify the majority of words in a beginning text before they even attempt to read it therefore allowing the child to concentrate on meaning and comprehension as they read without having to stop and decode every single word Advocates of whole word instruction believe that being able to recognize a large number of sight words gives students a better start to learning to read Recognizing sight words automatically is said to be advantageous for beginning readers because many of these words have unusual spelling patterns cannot be sounded out using basic phonics knowledge and cannot be represented using pictures For example the word was does not follow a usual spelling pattern as the middle letter a makes an u a sound and the final letter s makes a z sound nor can the word be associated with a picture clue since it denotes an abstract state existence The list is comprised of 100 words grouped and includes pronouns adjectives adverbs prepositions conjunctions verbs and nouns How fast should I go through the book The length and the pace of the daily lessons will vary with your child's age and abilities We suggest the following schedule For children under five one page per day will suffice and maintain their concentration on the lesson For children between five and six two to three pages per day will be sufficient For children over six three or more pages per day will be fine Children have a very short attention span Try to keep each lesson under fifteen minutes and spend no more than five to seven minutes per page If your child is young don't rush Work at a leisurely and comfortable pace Remember you have plenty of time to complete the course and if necessary to go back and repeat the course before your child starts reading instruction in school How old should my child be when we start the Reading Lesson The book is meant for children between the ages of 3 and 8 We do not suggest that you try to teach a child under the age of three to read Contrary to some books that suggest that you can teach infants to read there is no proof that such a thing is possible Children need certain developmental skills before they can read Flashing cards with letters and words at a baby is a fun thing to do and makes us feel like good parents but it does

not work The Reading Lesson is a totally developmentally appropriate course that is easy to follow and makes learning to read fun for parents and kids The book is an easy and cheap solution to teaching your children to read at home and has been a success with families all around the world Give it a try you re sure to love it [200 Must Know Sight Words Workbook](#) Alpha Press,2021-01-18 This awesome workbook featuring over 110 pages of exercises helps kids to have fun while learning to trace and master the 200 must know sight words from the Dolch list [100 Must Know Sight Words](#) Maya Nes,2021-02-17 Sight Words and Letter Tracing Notebook for KidsAre you ready to get your kids reading and writing to the next level With this notebook you will get 100 most common words for preschoolers to learn Increasing difficulty to help your little learners get smarter fast Perfect handy size 8 5x11 Cool design to stand out **100 High-Frequency Sight Words** Big books Press,2021-03-16 Top 100 High Frequency Words That are Key to Reading Success This set of sight words book provide many ways to practice Reading Handwriting Tracing Coloring Finding Counting Writing sentences Using various Dolch sight words from the primer word lists Great activities for Kindergarten Preschool and First grade Large size 8 5 x 11 *Reproducible Little Books for Sight Words, Grades K-2* Patricia Tilton,2004 **Sight Words Level 1** Lisa Gardner,2014-03-01 Sight Words Level 1 A Sight Words Book for Preschool and Kindergarten teaches your child sight words in three easy to use word sets The books in this Sight Words Book series has been organized into 5 levels This book teaches level 1 and contains 42 sight words As educators have found that teaching only a few sight words at a time is the best way to increase success the book includes 3 sets of words allowing your child to work through and master one set at a time or work through all the sets in sequence The book features a charming character bright colors and large bold text to help make the learning process fun After mastering the words in all 5 levels your child will be a more confident beginning reader and will be ready for reading and writing in elementary school Keep in mind this book is set up in a quick and easy to use flash card format to help your child quickly spell and read new words as they learn them Look also for our Level 2 3 4 and 5 Sight Word Books
