Moreno,Andrea J. Hoopes,2020-03-20 Technology and Adolescent Health In Schools and Beyond discusses how today s adolescents are digital natives using technology at home and in school to access information for entertainment to socialize and do schoolwork This book summarizes research on how technology use impacts adolescent mental health sleep physical activity and eating habits In addition it identifies monitoring and screening technology based tools for use with adolescents Choosing Help Tracy Stecker,2025-12-30 Why do so many people resist getting help even when their lives depend on it In Choosing Help psychologist Tracy Stecker PhD offers a compassionate and evidence based guide to understanding the deep rooted reasons why individuals avoid treatment for mental health and substance use issues and how to help them move toward change Drawing on decades of clinical research and real world experience Dr Stecker explores the psychological barriers that keep people from seeking support from fear and shame to mistrust and denial Rather than placing the burden solely on families or communities Choosing Help introduces a groundbreaking intervention model designed to shift the individual s own mindset making the decision to seek help not just possible but empowering Each chapter of Choosing Help dives into a specific mindset that keeps people from seeking support You ll meet individuals who believe treatment won t work who insist they re

not ready or who feel they don't need help at all. Others are convinced they can handle it on their own, fearing being forced into the wrong kind of treatment or struggle with the vulnerability of opening up. Through these stories and insights, Dr. Stecker reveals how these beliefs form and how they can be gently challenged and transformed. With clear analysis, relatable case studies, and actionable strategies, *Choosing Help* equips readers with the tools to recognize resistance, respond with empathy, and guide themselves or others toward healing. Whether you're a clinician, caregiver, loved one, or someone wrestling with your own reluctance, this book is a vital resource for making help feel like a choice, not a confrontation.

TECHNOLOGY IN MENTAL HEALTH Stephen Goss, Kate Anthony, LoriAnne Sykes Stretch, DeeAnna Merz Nagel, 2016-07-01. In the half-decade since publication of the first edition, there have been significant changes in society brought about by the exploding rise of technology in everyday lives that also have an impact on our mental health. The most important of these has been the shift in the way human interaction itself is conducted, especially with electronic text-based exchanges. This expanded second edition is an extensive body of work. It contains 39 chapters on different aspects of technological innovation in mental health care from 54 expert contributors from all over the globe, appropriate for a subject that holds such promise for a worldwide clientele and that applies to professionals in every country. The book is now presented in two clear sections: the first addressing the technologies as they apply to being used within counseling and psychotherapy itself, and the second section applying to training and supervision. Each chapter offers an introduction to the technology and discussion of its application to the therapeutic intervention being discussed, in each case brought to life through vivid case material that shows its use in practice. Chapters also contain an examination of the ethical implications and cautions of the possibilities these technologies offer now and in the future. While the question once was, "should technology be used in the delivery of mental health services," the question now is, "how to best use technology with whom and when." Whether one has been a therapist for a long time, is a student, or is simply new to the field, this text will serve as an important and integral tool for better understanding the psychological struggles of one's clients and the impact that technology will have on one's practice. Psychotherapists, psychiatrists, counselors, social workers, nurses, and in fact every professional in the field of mental health care can make use of the exciting opportunities technology presents.

Mental Self-help Edwin Lancelot Ash, 1923

Mental Self-help Edwin Lancelot Hopewell Ash, 1921

Mental Health and Mental Illness Phillip Fellin, 1996. This text examines the public mental health policies, programs, and services that constitute a collective response to mental illness. The author explores the process and politics of policy making as a framework for understanding historical and current policies and services related to mental illness. Special attention is given to mental health issues related to such population groups as ethnic minorities, women, children, and adolescents, the homeless, mentally ill, and older adults. Each chapter highlights controversial issues related to mental health policy development and program implementation. The book is especially relevant for students preparing for practice as mental health professionals in social work, nursing, psychology, and counseling.
