Fusion for Profit Sharan Jagpal, Shireen Jagpal, 2008-09-26 The corporate world is typically structured in silos. Managers urgently need to overcome this silo effect by fusing ideas across different functional areas in the firm. In *Fusion for Profit*, Sharan Jagpal, a well-known and highly respected multidisciplinary researcher and business consultant, explains in simple language using real-world examples how managers can use sophisticated concepts to fuse different functional areas in the firm, especially marketing and finance, to increase the firm's value. The author provides novel solutions to a wide range of complex business problems, ranging from choosing pricing and bundling strategies to positioning and messaging strategies, to measuring brand equity, to measuring advertising productivity in a mixed media plan including Internet advertising, to compensating a multiproduct sales force, to measuring the potential gains and risks from mergers and acquisitions. These concepts are illustrated using case studies from a variety of firms in different industries, including AT&T, Coca-Cola, Continental Airlines, General Electric, Home Depot, Southwest Airlines, and Verizon.

Binge-Watching and Contemporary Television Studies Mareike Jenner, 2021-10-15 Binge watching has become an umbrella term for a number of analytical questions in contemporary television studies, serving to describe the structure, marketing, and publication model of Netflix and other streaming platforms. Because the term describes a range of different ideas linked to streaming television programming, research on binge watching can bring together a number of different and related questions. This edited collection explores binge watching and its role in contemporary television from the perspectives of fan studies, audience research, transnational television studies, and narratology. This breadth of scope makes it possible to explore a broad variety of meanings and functions of the term and concept in contemporary television studies.

Financial Management for Executives Jay Prag, James S. Wallace, 2025-08-14 If you have prior business experience, either working for a company or managing your own business, then you know firsthand that an understanding of finance and accounting is essential to achieve your full potential on the job. Although business decisions certainly involve a careful analysis of non-financial factors, they also almost always require analysis of financial information. Initiating a marketing campaign, restructuring a subsidiary, determining the sale price of a new product, or assessing whether to acquire another company and at what price are just a few of the business decisions that require an understanding of financial information. This textbook is written to facilitate that understanding and to facilitate the reader's personal goal of gaining a more complete understanding of finance and its use in business decisions.

Target Audience: *Financial Management for Executives* is written specifically for the Executive MBA, MBA, and executive training markets. This concise text can be used in a wide variety of course formats, ranging from brief executive programs lasting only a few weekends to more traditional 15-week courses.
