**Being British Muslims** Dr Mamnun Khan, 2019-04-22 This highly thought provoking book packed with incisive observations and analyses on a wide range of issues facing British Muslims offers concise yet extensive commentary on the cultural and intellectual contentions in contextualising Islam in the UK As of 2018 roughly 50% of the UK's Muslim population was born in the UK With this shift comes on one hand the loss of old ways of experiencing the world and navigating one's place within it and on the other hand it comes with the excitement and opportunity to make new culture The questions now facing British Muslims are From where can British Muslims get their inspiration and What should be the nature of this new culture These questions are becoming ever more important as the UK's Muslim population is expected to grow from 5% to 10% by 2050 Thus the author's clearly presented analysis provides critical and constructive insights for readers wanting to understand how to make faith more meaningful and relevant going from a largely immigrant ethnocentric religion and identity politics to one formed on intelligent and confident theocentric understanding Essential reading for anyone interested in Islam and British Muslims including policymakers community leaders philanthropists and activists as well as scholars and students of Islamic studies sociology cultural studies politics philosophy and identity This is a most refreshing and indispensable overview for anyone interested in the area

Commendations Dr Khan rejects the shallow identity politics which assume that British Muslims must either assimilate to western secular norms or react fanatically against them Instead he reminds us that all great religions demand an intelligent application of their principles to everyday life and demonstrates how this should be done in a series of thoughtful articles which not only offer informed judgements but encourage readers to think for themselves Dr Michael Sherborne author of HG Wells Another Kind of Life 2010 Mamnun is a young social analyst founder of grassroots initiatives and writer whose collection of articles are interesting insightful and pertinent His ability to question received wisdom analyse complex issues succinctly and offer possible solutions to the challenges facing British Muslims is refreshing and admirable Recommended reading Muhammad Mojlum Khan F R A S author of bestselling The Muslim 100 2008 The Muslim Heritage of Bengal 2013 and Great Muslims of the West 2017 This collection of thoughts observations and meditations provides a welcome

perspective to the ongoing crystallisation of religiously inspired thinking in Britain it is in the spirit of communal deliberation and intellectual enquiry that this anthology constructively demonstrates how we might proceed Shaykh Muhammad Nizami British born Islamic scholar and political theorist Islam in the UK is at a fork in the road At the end of one turn is weakness irrelevance and eventual disappearance At the other end is confidence prosperity and illumination Dr Mamnun s timely series of short essays boldly and effectively makes the case for the latter May this work inspire positive action in those who are concerned by our current predicament and long for a return to godliness guidance and harmony Iqbal Nasim Chief Executive National Zakat Foundation

*Immigration and Freedom* Chandran Kukathas, 2025-07-15 Few would deny that immigration controls are restrictions on individual freedom In debates about immigration however freedom is rarely mentioned When it is raised it is usually indirectly and the contending parties typically divide into those who question the wisdom or the morality of limiting the movement of would be immigrants and others who think such restrictions warranted The language of freedom rarely makes an appearance perhaps because the liberty of foreigners or aliens does not really interest most people Advocates of immigrants express a concern for the welfare of outsiders others appeal to the welfare of natives and the integrity of the nation The point of this book is to establish freedom as the basis of the immigration question Chandran Kukathas argues that what s at stake is nothing less than the liberty of citizens and residents of the free society and therefore the free society itself To put it simply immigration controls are controls on people and it is not possible to control some people without controlling others More specifically it is not possible to control outsiders aliens foreigners would be immigrants without controlling insiders as well and to enforce immigration control is to enforce control generally The author shows why this must be so and explains why it is significant Over the course of eight chapters and an epilogue the book draws anecdotally on current and historical immigration practices in Canada the United States Australia Japan Singapore and most of the major Western European countries but the information is deployed in service of an accessible first principles argument To assess immigration he says we must think then about what we value most about our society and also come to a clearer understanding about what we mean by immigration in the first place In the conclusion he defends the need for greater freedom of movement which ultimately means a world of more open borders
