Model Illustrating Sustainable Architectural Design William Van Zyl, 2018 *Advancing Sustainable Development Goals With Educational Technology* Mobo, Froilan Delute, 2024-12-11 Educational technology plays a vital role in advancing the Sustainable Development Goals (SDGs) by transforming how knowledge is accessed, shared, and applied. By leveraging digital tools and innovative teaching methods, educational technology can promote quality education, reduce inequalities, and support lifelong learning opportunities for all. It enables scalable and inclusive solutions that address global challenges, fostering a more informed and empowered society. As the world becomes increasingly interconnected, harnessing the potential of educational technology is crucial for achieving the SDGs and creating a more equitable and sustainable future. *Advancing Sustainable Development Goals With Educational Technology* explores theoretical insights, practical applications, case studies, and best practices, illustrating how educational technology can contribute to the global effort of achieving the SDGs. It provides a comprehensive understanding of the intersection between educational technology and each of the 17 SDGs, highlighting innovative approaches, success stories, and lessons learned. Covering topics such as artificial intelligence (AI), higher education institutions, and global partnerships, this book is an excellent resource for educators, educational administrators, policymakers, government officials, researchers, academicians, non-governmental organizations, educational technology developers, and innovators, and more.

Academic Excellence with Civic Responsibility: The First Decade of Service-Learning at PolyU Stephen Chen 陈永基, Grace Ngai 区佩兰, 2024-11-01 This book tells the story of the first ten years of Service Learning at The Hong Kong Polytechnic University, highlighting what has been accomplished through Service Learning and how Service Learning can profoundly benefit wider society. Through this book, the authors hope to share their experiences and insights and inspire other interested parties to join the Service Learning community to foster a brighter and more sustainable future.

Robotics in Education Richard Balogh, David Obdržálek, Martin Fislake, 2024-09-26 The 2024th edition of *Robotics in Education* is based on the 15th Conference on Robotics in Education (RiE2024), mirroring experts' knowledge from all over the world. It includes and summarizes all accepted papers from an interdisciplinary community which met traditionally at the annual Robotics in Education conference, making it a valuable resource for educators, researchers, scientists, and engineers. Without losing the focus on educational robotics, the topics have been carefully expanded this year. Therefore, the contributions range from theory to practice and from primary schools to university labs, while the content covers experience reports from out-of-school programs to didactic methodological approaches in teacher training and artificial intelligence to human-robotics interaction. Also, new robot designs, robot competitions, and aspects of maker spaces were considered. The anniversary edition of the conference took place from 10-12 April 2024 at the University of Koblenz in Germany.
