The lighting is dramatic, with a strong blue and purple color palette. The woman's face is the central focus, with her eyes looking slightly away from the camera. The man's face is partially visible, showing his profile as he leans in. The overall mood is intimate and sensual.

Branding with Powerful Stories Greg Stone, 2018-12-07 Whether you are branding your company your product your service or yourself learn to boost the power of your story and convey a compelling message in any setting by incorporating villains victims and heroes Compelling stories exalt motivate and acculturate every worker in an enterprise They also attract customers and media alike Imagine an elderly man snowed in unable to shop for groceries until a supermarket comes to the rescue and delivers his food The story of this company going out of its way to help a customer in need will resonate not only with consumers but also with employees This book explains not just how to tell a captivating story but also what elements namely villains victims and heroes it should include in the first place This approach is based on the notion that in business messaging the villains may just be your best friends The villains are simply any problems that cause pain discomfort or extra expense for customers who are in effect the victims As for the heroes they are best illustrated by the supermarket going beyond expectations Who in business wouldn't want to emulate that company If your products and services offer real solutions to customers predicaments there is nothing more powerful than communicating that message and making sure your potential customers remember it

and cultural debates such as the Metoo movement and fourth wave feminism *Water in Plain Sight* Judith D. Schwartz,2016-07-26 Water scarcity is on everyone s mind Long taken for granted water availability has entered the realm of economics politics and people s food and lifestyle choices But as anxiety mounts even as a swath of California farmland has been left fallow and extremist groups worldwide exploit the desperation of people losing livelihoods to desertification many are finding new routes to water security with key implications for food access economic resilience and climate change Water does not perish nor require millions of years to form as do fossil fuels However water is always on the move In this timely important book Judith D Schwartz presents a refreshing perspective on water that transcends zero sum thinking By allying with the water cycle we can revive lush productive landscapes Like the river in rural Zimbabwe that thanks to restorative grazing now flows miles further than in living memory Or the food forest of oranges pomegranates and native fruit bearing plants in Tucson grown through harvesting urban wastewater Or the mini oasis in West Texas nourished by dew Animated by stories from around the globe *Water In Plain Sight* is an inspiring reminder that fixing the future of our drying planet involves understanding what makes natural systems thrive **Why Didn't Evangelicals "See Him Coming"?** Paul A. Pomerville,2023-08-31 Why Didn t Evangelicals See Him Coming is a hard hitting clear eyed account of how American society the political establishment and the rule of law reacted to a sociopath president After Donald Trump left office Americans didn t see him going either Trump came and went yet millions of Americans were clueless about what happened because of his gaslighting tornado An evangelical Christian author explains why Bible believing church going Jesus talking America loving evangelicals along with other Americans listened to were enamored by and elected an immoral sociopath An unlikely combination of viewpoints psychology law and biblical theology provide a surprising coherent picture of how Donald Trump deceived and inflicted devastation on democracy His uncanny influence is chronicled by media reporting during his four years in office and afterwards in a shadow presidency at Mar a Lago If Trump succeeded in anything it was deceit Psychologists rightly attribute this to his gaslighting biblical theology probes deeper to his corrupt human nature An FBI search warrant at Mar a Lago revealed the inevitable truth Donald Trump was a thief and traitor from the beginning the law finally caught up with a long overdue unaccountable serial criminal for crimes that America would not tolerate The Conservative Futurist James Pethokoukis,2023-10-03 Discover the surprising case for how conservatism can help us achieve the epic sci fi future we were promised America was once the world s dream factory We turned imagination into reality from curing polio to landing on the Moon to creating the internet And we were confident that more wonders lay just over the horizon clean and infinite energy a cure for cancer computers and robots as humanity s great helpers and space colonies Also of course flying cars Science fiction from The Jetsons to Star Trek would become fact But as we moved into the late 20th century we grew cautious even cynical about what the future held and our ability to shape it Too many of us saw only the threats from rapid change The year 2023 marks the 50th anniversary of the start of the Great Downshift in technological
