This streamlined edition of that text has been developed to provide readers a brief version that offers essential information about reading instruction based on research that aligns with No Child Left Behind directives. The focus of this book is how to teach phonemic awareness, phonics, comprehension, vocabulary, fluency and ongoing classroom assessment. Special features include: A theory chapter to ground literacy background knowledge; An infusion of the most current research available to inform practice and all five No Child Left Behind initiatives regarding phonemic awareness, phonics, comprehension, vocabulary and fluency; A newly organized assessment chapter presenting four purposes of assessment as identified by Reading First legislation including outcome assessment, screening instruments, diagnostic assessment tools and ongoing progress monitoring assessments.

A Balanced Approach to Literacy Instruction provides students with a strong background in using a balanced approach to literacy instruction. Using the National Standards for English Language Arts as a guide, the book calls for classroom teachers to become knowledgeable of and to master several literacy instructional practices, applying each when appropriate. A wide variety of literacy instructional practices are clearly presented. Theories are accompanied by practical, research-based ideas that students can use as they complete their field-based experiences and go out into their own classrooms. In addition to its in-depth coverage of phonics, comprehension, assessment and vocabulary instructional strategies, A Balanced Approach to Literacy Instruction has wide coverage of technology and writing. Ways to meet the needs of diverse student populations are discussed throughout the book. Students also are provided with thorough lesson plans in reading, writing and technology for them to consider using or adapting for their field-based experiences.
