

Answers to activities

- 1.1 Owners and creditors are considered to be the most important stakeholders because they have most to lose if the business fails.
- 1.2 Who supplied the resources of the business.
- 1.3 Capital will be reduced if a business makes a loss. The loss means that assets have been reduced and capital is reduced by the same amount so as to maintain the balance in the accounting equation.
- 1.4 $\text{Capital} = \text{Assets} - \text{Liabilities}$
- 1.5 It is a negative number. In accounting, we *always* use brackets to indicate negative numbers.

Review questions

If you haven't already started answering them, you now have a set of graded review questions to try. 'Graded' means that they get more difficult as you go through them. Ideally, they should be done in the sequence they appear. However, don't forget that the questions with an 'A' after the question number do not have any answers provided in this book. Your teacher or lecturer will be able to provide you with the answers to those questions but be sure to attempt them first before asking for the answers! The answers to the other questions can be found at the back of the book.

We realise that you would like to have all the answers in the book. However, teachers and lecturers would not then be able to test your knowledge with questions from this book, as you would already possess the answers. It is impossible to please everyone, and the compromise reached is that of putting a large number of review questions in the book.

This means that appropriate reinforcement of what you have learnt can take place, even if you are studying on your own and have to miss out all the 'A' questions because you have no access to the answers.

Multiple choice questions. In addition to these Review Questions, there are questions relating to the material in this chapter in a bank of multiple choice questions at the end of Chapter 6. You should wait and attempt them when you reach them, not before.
