Southern Society

If YOU were there...

Your family owns a small farm in Georgia in the 1840s. Sometimes you work in the fields, but more often you tend the vegetable garden and peach orchard. Since you have no close neighbors, you look forward to Sundays. Going to church gives you a chance to socialize with other young people. Sometimes you wonder what it would be like to live in a city like Savannah.

How would life be different if you left the farm for the city?

BUILDING BACKGROUND Although the South had some industry, agriculture was the heart of the southern economy. Cotton was king. As a result, wealthy plantation families were the most prominent social class in southern society. Small farmers, however, made up the largest part of the population.

Southern Society and Culture

Popular fiction often made it seem that all white southerners had many slaves and lived on large plantations. Many fiction writers wrote about wealthy southern families who had frequent, grand parties. The ideal image of the Antebellum (before the war) South included hospitality and well-treated slaves on beautiful plantations that almost ran themselves.

This romantic view was far from the reality. During the first half of the 1800s, only about one-third of white southern families had slaves. Fewer families had plantations. Despite their small numbers, these planters had a powerful influence over the South. The economy of the South was dependent on agriculture, and most of the agricultural production relied on slave plantations. Many plantation owners served as political leaders. They led a society made up of many different kinds of people, including yeomen farmers, poor whites, slaves, and free African Americans. Each of these segments of society contributed to the economic success of the South.
