Higher Education is in a state of ferment People are seriously discussing whether the medieval ideal of the university as being excellent in all areas makes sense today given the number of universities that we have in the world Student fees are changing the orientation of students to the system The high rate of non repayment of fees in the UK is provoking difficult questions about whether the current system of funding makes sense There are disputes about the ratio of research to teaching and further discussions about the international delivery of courses *World University Rankings and the Future of Higher Education* Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence *World University Rankings and the Future of Higher Education* is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond **Public Policy for Academic Quality** David D. Dill, Maarja Beerkens, 2010-04-12 Over the last decade the structure of higher education in most countries has undergone significant change brought about by social demands for expanded access technological developments and market forces In this period of change the traditional concerns with access and cost have been supplemented by a new concern with academic quality As a consequence new public policies on academic quality and new forms of academic quality assurance have rapidly emerged and swiftly migrated across continents and around the globe The growing public debate about academic quality assurance within and across countries however has not always been well informed by analyses of the strengths and weaknesses of these new policy instruments The Public Policy for Academic Quality Research Program PPAQ was designed to provide systematic analyses of innovative external quality assurance policies around the world This volume

presents the fourteen analyses of national policies on academic quality assurance conducted as part of the PPAQ Research Program utilizing the knowledge of informed international scholars Each policy analysis examines the policy goals implementation problems and impacts of these newly developed national quality assurance instruments The book concludes with an assessment of the lessons learned from these collected policy analyses and outlines the framework conditions that appear essential for assuring academic standards in the university sector
