Guayabero,2006 This publication is motivated by the conviction that the concept of the object as such has been left behind  
The universe of objects or perhaps we would have to say of objects put forward here is that of the work of those generation  
that graduated after the Barcelona Olympics from 1992 into these first few years of the 21st century What seems clear is that  
the classic definition of design has been rendered obsolete In the first place because an object s conceptual and narrative  
charge largely determines its material and physical configuration and in second place because many present day pieces are  
not produced industrially some because their designers chose not to others because they seem not to fit into excessively  
conservative industrial set ups What does seem to be the case is that we are dealing with a new typology of designer more  
open more multidisciplinary and more remote from the traditional commercial circuit which is not to say remote from the  
market Global Sources Electronics ,2007 *Asian Sources Timepieces* ,1991 *Better Roads* ,1997 *Global Sources*
