

Development studies

Development study is a discipline that gives particular skills on solving various problems and assembles people of different backgrounds.

Objectives

1. To make students understand and explain the concept and theories of social development in developing countries and make you are the factors that influence social development.
2. To understand the current issues of the world, meaning the contemporary issues that are happening at the local level, continental level and global level.
3. To make us able to discuss, analyze and participate in the issues of social development, meaning be part of that discussion as well.

Concept and theories of social development

Development: this is the concern of everyone because the process of development affects everyone.

People define development different because of their backgrounds, example a lawyer will define development in a different way then a doctor will define development.

There are two group when defining development.

-there are those who say that development is an economic growth.

Some people say that development includes totality and comprehensive process that includes all issues and sectors of the economy.

Development: this terms is defined differently by many people from different professions example a lawyer would define different from a doctor, but in actual sense it means moving from a lower stage to a better stage.

Marxists theory of social development: he says that this is the theory that is based on social change, by changing the inequalities and injustices that are created by the capitalists.

Development Studies Notes

**Isa Baud, Elisabetta Basile, Tiina
Kontinen, Susanne von Itter**

Development Studies Notes:

Junior Certificate ,1981 **Building Development Studies for the New Millennium** Isa Baud, Elisabetta Basile, Tiina Kontinen, Susanne von Itter, 2018-12-21 This book brings together multiple critical assessments of the current state and future visions of global development studies It examines how the field engages with new paradigms and narratives methodologies and scientific impact and perspectives from the Global South The authors focus on social and democratic transformation inclusive development and global environmental issues and implications for research practices Leading academics provide an excellent overview of recent insights for post graduate students and scholars in these research areas

Technical Note ,1922 **Development Fieldwork** Regina Scheyvens, 2014-02-17 This book provides an invaluable guide to undertaking development fieldwork in both the developing world and in western contexts It takes you through all the key stages in development research and covers Research design and the roles of quantitative and qualitative methods Research using archival textual and virtual data along with using the internet ethically Practical as well as personal issues including funding permissions motivation and attitude Culture shock ethical considerations and working with marginalized vulnerable or privileged groups from indigenous peoples through to elites and corporations How to write up your findings Sensitive engaging and accessible in tone the text is rich in learning features from boxed examples to bullet pointed summaries and questions for reflection Development Fieldwork is the perfect companion for students engaged in research across development studies geography social anthropology or public policy

The Bangladesh Development Studies ,1979 Notes on the Development of a Child. II. The Development of the Senses in the First Three Years of Childhood Milicent Washburn Shinn, 1907 *International Studies Notes* ,1987 *Resources in Education* ,1977 Experiment Station Record United States. Office of Experiment Stations, 1897 Methods in Development Research Jeremy Holland, John Campbell, 2005 Over the past decade there has been an increasingly receptive audience for participatory and qualitative research methods by policy makers development practitioners and academics working in applied research At the same time there is an increasing awareness that the value of research can be enhanced through a more systematic combination of quantitative and qualitative methods While this recent interest has begun to provide useful pointers as to how development research might be improved it has also given rise to certain problems This book will draw together lessons about emerging best practice with regard to combining qualitative and quantitative methods and approaches to generate numbers from qualitative participatory methods and to monitor and evaluate development processes It will build and expand upon innovation and reflection from practice in developing and developed societies from within development agencies and academia government departments and civil society organizations By drawing on current research in many sectors and countries the book will situate current development research issues squarely within debates about development policy and social research and it will help begin the process of defining best practice in the use of participatory qualitative and

quantitative methods and issues of methodological triangulation which are of considerable interest to academics practitioners and policy makers A genuine how to manual which combines best practice and new innovations and presents fascinating material for academics practitioners and policy makers
