Development Through the Lifespan Laura E. Berk, 2016-09-30 Selected Readings in Developmental Psychology Laura E. Berk, 2010 **Fundamentals of Nursing' 2004 Ed. 2004 Edition** , **Explorations in Lifespan Development DVD Guide for Development Through the Lifespan** Laura E. Berk, 2009-10-15 **Getting Ready for Benjamin** Rita M. Kissen, 2002-10-23 This book argues that issues of sexual diversity are inextricably interwoven into the basic concerns of pre service teacher education How do we make our students aware of assumptions regarding masculinity femininity and sexuality that arise from what is presented represented or omitted from curricula and classroom practice What do we say about homophobia and heterosexism as we anticipate the administrative hierarchies school cultures parent and community politics they will encounter as teachers What special challenges might face a teacher straight or gay who discusses sexual orientation in a high school classroom or responds to a homophobic remark in the hallway or the cafeteria How should we prepare a teacher for a parent conference with two moms or two dads The essays in this volume range from an analysis of gay stereotypes in teacher education textbooks to a discussion of queer multiculturalism to personal accounts by lesbian and gay teacher educators and heterosexual allies who are challenging homophobia and heterosexism in their own classrooms and programs All agree that education for sexual diversity is as important as education about all other forms of difference and that future teachers need to know how to create safe spaces for lesbian and gay students along with the children of gay families who are increasingly a part of the classroom landscape

Terrorism, Homeland Security, and Risk Assessment via Research Proposal (3rd ed.) Wayne L. Davis, Ph.D., 2014-04 This book discusses issues related to terrorism and suggests how to perform risk assessment via academic research First this book discusses several behavioral disorders and theories related to crime Theories are important because they describe the problem they control the survey questions during a study the instrument must be valid and they provide possible solutions to the problem Second this book discusses terrorism and risk management emergency response HazMat scenes agroterrorism and some of the pros and cons of different strategies for managing terrorism Finally this book shows how to investigate a problem via academic research Several research proposal examples are provided Reading about a problem is good but knowing how to solve a problem is better What the readers will come to realize is that there are many assumptions and limitations related to a study which may impact the credibility of the study Hence readers will come to realize the value of scholarly peer reviewed articles
