Lannon shows the diversity and complexity of the frameworks and instruments of Euro Mediterranean cooperation Firstly he evaluates the Euro Mediterranean Partnership secondly focuses on the European Neighbourhood Policy and finally he examines the potential impact of the Union for the Mediterranean and the Advanced Status of Morocco From another point of view Professor Azzam Mahjoub centres his analysis on the economic aspects of the Euro Mediterranean Partnership evaluating the objectives outlined in the Barcelona Declaration and the outputs of the Euro Mediterranean Free Trade Zone In his opinion the objective of reducing disparities is the most important challenge as there has been no relevant progress in the nine Mediterranean countries studied In spite of the acknowledgment of some shortcomings in the Barcelona Process both authors put forward a set of proposals to achieve the full potential of the Euro Mediterranean Partnership

The Euro-Mediterranean Partnership Pros and Cons Hani H. Habeeb,2002 This book is a historical document a disputed analysis and evidence of the Euro Mediterranean Partnership as introduced by the Barcelona Declaration It is an account of the unprecedented and unrivalled negotiations between the Euro Mediterranean partners and an evaluation of their achievements It is also an account of the obstacles faced in the transformation of the Euro Mediterranean region into one of peace security stability and prosperity to ensure the realisation of a just and comprehensive peace in the Middle East on the basis of the international terms of reference democratic principles the establishment of a free trade zone a market economy system and the participation of civil society The book addresses several questions which aim to determine whether the Partnership is an extension of the crusades and the Balfour Declaration the result of international transformations a reflection of diversity or a real threat to the security economy and culture of the Arab world aimed at Arab identity and the perpetration of division amongst the Arab world through the creation of a multinational regional system identified as the Western model for an Eastern Mediterranean system that will ensure the integration of Israel and the creation of a separate phase of rupture and alienation within the history of Arab civilisation Similarly this book argues whether the Euro Mediterranean Partnership globalisation imperialist alliances and civil society are multiple manifestations of a single phenomenon to insure Western supremacy and strategic expansion and the exploitation of the Mediterranean region Or

whether the Partnership is the strategic Arab European choice needed at this particular moment in history in order to galvanise an effective European political and economic role in the development and economic technological and civil evolution of the Arab world

The Euro-Med Partnership 15 Years After the Barcelona Declaration Sarah Fouad Al Borgi,2011 After 15 years on its initiation through the Barcelona Declaration the impact of the Euro Med partnership EMP remains not very clear In this project we will be presenting the initiative its goals and the context in which it was established We will show how the trade stimulated by the EMP did not change much in the realities of the trade balances between the European Union EU and the Mediterranean Partner Countries MPCs We will move later on to show the main deficiencies of the EMP some of them inherent in the trade agreements others inherent in the realities of the Mediterranean economies Four main indicators are

addressed in this regard The level of trade stimulated between the two sides of the agreements the increased levels of Foreign Direct Investment FDI and financial flows and finally the degree of South South integration In addition we will be showing how the Eastern Partnership with the Central and Eastern European Countries CEECs performed better than the EMP where countries involved were able to integrate and gain accession to the EU The main advantage of the Eastern Partnership was in terms of FDI levels and trade stimulation As shown in the sections below the CEECs conducted liberalization on the regional level and pushed for reforms in order to gain accession to the EU In addition the Eastern agreements were bold in terms of services liberalization We therefore show that the main difference between the two initiatives lays in the fact that the Eastern partnership offers prospects for adhesion whereas the EMP does not
