**Christians as Teachers** Geoffrey Beech,2015-12-04 How does teaching Christianly differ from other forms of teaching How might a Christian teach in a biblical way some commonplace set of facts from a mandated secular curriculum This book considers what a biblical approach to teaching may involve as it emerges from a biblically grounded life and what that might look like in the classroom Rather than speaking of integration of faith and learning it starts from a foundation of Christ the Truth and Lord of all and moves to the development of a framework for classroom practice that includes a need to try to see things from God s perspective All truly Christian education is seen therefore as a profoundly biblical pursuit leading to the revelation of God To do this the book explores the underlying theology and principles out of which our education should flow These principles then allow us to examine such areas as the consideration of a Christian way to teach subjects such as geography and mathematics or even what might be distinctive about the way a Christian teacher may do something as mundane as picking up a pencil
