Designed for the clergy and lay leadership of congregations in the midst of transitions, this volume offers a quick start guide to help clergy and lay leadership with topics from defining mission to developing effective decision making processes. *How to Hit the Ground Running* contains a program for an effective leadership change that begins one month before a transition and continues for the first eighteen months of a new pastor/priest or rector's tenure. With this revision, author Neal Michell has updated the text throughout to reflect current concerns of church leaders, including more coverage of leadership in small congregations and approaches to empowering lay leaders. Designed in a user-friendly format, the volume includes step-by-step guidance and exercises to ensure that rather than being stalled and directionless, a period of transition is dynamic and purposeful. *Understanding Organisations: Part I*, **Innovation Leadership: Empower Your Team to Drive Change & Adapt Quickly** Javier Reyes, 2025-09-05. In today's fast-moving market, the most dangerous phrase a leader can use is "this is how we have always done it." Many companies want to be more innovative, but their internal culture holds them back. Leaders who punish mistakes, discourage questions, and control every decision create teams that are afraid to change. This creates a slow, rigid organization that is vulnerable to being overtaken by the competition. *Innovation Leadership* is a practical guide for leaders who want to build a team that can adapt and win. This book shows that your job is not to be the source of all new ideas. Your job is to create a culture that empowers your team to discover, develop, and execute them. This book provides a clear framework to build a safe environment where your team members are willing to take smart risks. Empower your people to take ownership and make decisions without your approval. Lead your team through periods of uncertainty with clarity and confidence. Turn failures and mistakes into powerful learning opportunities for the whole team. Develop a nimble and resilient organization that responds quickly to change. Stop managing a process and start leading a team of innovators. This book gives you the tools to unlock the full creative potential of your people. It is an essential guide for building a business that does not just survive the future but actively creates it. This theoretical construct is then interpreted through more than forty years of valuable experience acquired by the author while working in the trenches of education reform. This book's amalgamation of theory and practice is translated into ten lessons learned from attempts to reform and improve public education to date. It provides the perspective of a practitioner as to how and why the unintended consequences of well-intentioned people have hindered rather than helped to reform and improve our schools. It calls for us to pause, take a deep breath, and learn from the experiences of the past before launching the latest reform *de jour* in a frenzied quest to find a silver bullet or quick fix to the
