Duff, Nina Spada, 2015-03-02 An important contribution to the emerging body of research based knowledge about English grammar this volume presents empirical studies along with syntheses and overviews of previous and ongoing work on the teaching and learning of grammar for learners of English as a second foreign language It explores a variety of approaches including form focused instruction content and language integration corpus based lexicogrammatical approaches and social

perspectives on grammar instruction Nine chapter authors are Priority Research Grant or Doctoral Dissertation Grant awardees from The International Research Foundation for English Language Education TIRF and four overview chapters are written by well known experts in English language education Each research chapter addresses issues that motivated the research the context of the research data collection and analysis findings and discussion and implications for practice policy and future research The TIRF sponsored research was made possible by a generous gift from Betty Azar This book honors her contributions to the field and recognizes her generosity in collaborating with TIRF to support research on English grammar Teaching and Learning English Grammar is the second volume in the Global Research on Teaching and Learning English Series co published by Routledge and TIRF *Universal Grammar and the Second Language Classroom* Melinda Whong, Kook-Hee Gil, Heather Marsden, 2013-06-26 This book proposes that research into generative second language acquisition GenSLA can be applied to the language classroom Assuming that Universal Grammar plays a role in second language development it explores generalisations from GenSLA research The book aims to build bridges between the fields of generative second language acquisition applied linguistics and language teaching and it shows how GenSLA is poised to engage with researchers of second language learning outside the generative paradigm Each chapter of Universal Grammar and the Second Language Classroom showcases ways in which GenSLA research can inform language pedagogy Some chapters include classroom research that tests the effectiveness of teaching particular linguistic phenomena Others review existing research findings discussing how these findings are useful for language pedagogy All chapters show how generative linguistics can enhance teachers expertise in language and second language development This groundbreaking volume ably takes on the gap that currently exists between generative linguistic theory in second language acquisition GenSLA and second language pedagogy by gathering chapters from GenSLA researchers who are interested in the relevance and potential application of their research to second foreign language teaching It offers a welcome and thought provoking contribution to any discussion of the relation between linguistic theory and practice I recommend it not only for language teachers interested in deepening their understanding of the formal properties of the languages they teach but also for linguists interested in following up on more practical consequences of the fruits of their theoretical and empirical research Donna Lardiere Georgetown University Washington DC USA **El-Hi Textbooks & Serials in Print, 2003**, 2003
