Reading Practices with Deaf Learners Patricia L. McAnally, Susan Rose, Stephen Patrick Quigley, 2007 This book was written specifically for professors and college students in teacher training programs for deaf education and for classroom teachers working with deaf and hard of hearing learners It is one of the very few books on the market that focuses entirely on the hearing impaired It consists of three sections each one providing in depth information on topics critical to the teaching of reading to this specific population Section one Foundations contains chapters dealing with theory and research in such topics as cognition reading language literary development vocabulary and comprehension One chapter on ASL English and Reading

looks at the research in the area of second language learners and discusses its application to deaf and hard of hearing students Section two Instructional Management deals with instructional management and describes instructional systems and designs These chapters look at current trends in education and how these trends apply to the education of students who are deaf and hard of hearing Section three Applications focuses on specific instructional models in reading writing and spelling detailing strategies that have been successfully used with deaf and hard of hearing learners The last chapter in this section discusses assessment giving information and examples of both formal and authentic procedures

Essentials of Research Methods for Educators Anastasia Kitsantas, Timothy J. Cleary, Maria K. DiBenedetto, Suzanne E.

Hiller, 2023-10-13 **Essentials of Research Methods for Educators** provides future teachers specialists administrators and educational leaders with a textbook and a resource that goes beyond the classroom to use in your career With a focus on the wide variety of data available to educators and the importance of data literacy for all those involved in education this book presents research methods in a relatable educational context with a variety of concrete examples The authors use their expertise in educational psychology to optimize learning The structure of the book breaks down research into discrete steps with the Let's See It Let's Do It and You Do It steps for each chapter so students feel motivated to complete their research projects By covering qualitative quantitative and mixed methods research with additional chapters on action research and program evaluation students get a complete picture of the current research methods landscape This highly scaffolded book supports future educational leaders in incorporating research and methods into their work and life

Handbook of Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Resources in Education, 1999-04 [Teaching English to Deaf and Second-language Students](#), 1986 **Effectively Educating Students with Hearing Impairments** B. Luetke-Stahlman, John Luckner, 1991 **Academic Content**

Standards ,2004 **Exceptional Child Education Resources** ,1997 **The Social-Ecological Context of Health Literacy** Karolina Kósa, Kevin Dadaczynski, Susie Sykes, Éva Bíró, 2022-06-21 **The National Guide to Educational Credit for Training Programs** ,1999 Bilingual Educational Publications in Print ,1983 **Proceedings of the Johns Hopkins National Search for Computing Applications to Assist Persons with Disabilities** ,1992 *The Software Encyclopedia 2000* Bowker Editorial Staff, 2000-05 *Linguistics and Language Behavior Abstracts* ,2009 **Rethinking the Education of Deaf Students** Sue Livingston, 1997 Here is a compelling and controversial text which asserts that Deaf students should be treated no differently than non Deaf students The author a veteran and practicing teacher rejects the predominant view of Deaf students as special learners in need of language remediation and repair Instead she maintains that for Deaf students as well as their hearing counterparts the primary educational goal is the making and sharing of understandings in various subjects Furthermore she views this as a process that occurs naturally concomitantly and reciprocally with the acquisition of language regardless of one s hearing ability Livingston s assertion clashes with conventional Deaf education which presumes that the wider learning begins after students master a sign system that codifies and reconstructs English With a cumbersome orderly piecemeal and unnatural approach this traditional view frequently forces teachers to water down curriculums in an attempt to make English more readily acquired As a result Deaf students are deprived of rich and challenging content Rethinking the Education of Deaf Students offers an alternative and demonstrates how American Sign Language ASL and English can coexist in the same classroom embedded in the content of what is being taught Through clear theoretical explanations field tested teaching strategies authentic examples of students work lesson plans and sections on assessment Livingston suggests ways to help students become educated language users Her ideas hold enormous implications for those who teach Deaf students develop school budgets design programs and train future teachers More important they may hold the key that unlocks the potential of Deaf students of all ages to become voracious readers and accomplished writers **The Learning is on the Wall** Adrienne Reuben White, 2003
