Crowder, 1990 Peanut producers in the United States have elected mandatory marketing quotas with a two tiered price support program Peanuts sold within a producer's quota qualify for a higher support price than peanuts sold outside the quota A major issue for the peanut program in forthcoming legislation is whether to continue the current program or to include peanuts in a general agricultural program with other commodities

The Price of Mercy Emily Galvin Almanza, 2026-02-17 A former public defender takes us behind the closed doors of America's criminal courts revealing how the institutions that claim to protect us are doing the exact opposite and offering a blueprint for finally fixing it A searing compassionate and utterly necessary book that pulls back the curtain with the clarity of a lawyer and the heart of someone who's seen the criminal legal system's devastating consequences up close Michelle Alexander author of *The New Jim Crow* As Americans we are told a rose tinted story about our criminal courts that these are the hallowed halls of justice that the purpose of our legal process is to find the truth and that those who enforce the law are both equitable and heroic But what if the reality is purposefully obscured to hide something rotten at the system's core In *The Price of Mercy* attorney and former public defender Emily Galvin Almanza weaves hard data and unforgettable stories dark humor and compelling evidence to tell us the truth about what's really going on behind the closed doors of America's criminal courts She shows us how jails actually increase future crime the dirty tricks police use to make millions in overtime pay how a man could spend decades in prison because scientists mistook dog hair for his own the perverse incentives that push prosecutors to seek convictions even when they themselves don't want to and how judges may decide cases differently after lunch We'll learn what's working too how public defenders can improve public health and even economic mobility and how planting more trees can reduce a neighborhood's murder rates But a lone defender winning a case won't change the system Galvin Almanza argues that we need an engaged public to confront the stark reality of our

crime generating poverty entrenching health destroying legal apparatus and rebuild it into something that can save our collective present and prevent our future from being torn apart Provocative and eye opening *The Price of Mercy* lifts the curtain on the way our laws really operate and presents a path forward for true transformation of the American criminal court system Justice and the law itself is not some static thing It is something enacted together decision by decision in acts of inhumanity or mercy *From Farming to Food Service* Anthony E.
