Ethical Perspectives on Artificial Intelligence in

Biomedical Engineering Prof. Dr. theol. habil. Arne Manzeschke, Dr.-Ing. Thomas Wittenberg, 2026-03-17 Artificial intelligence AI is currently considered a disruptive key technology in the field of biomedical engineering. However, there is more to it than just the applications, advantages, and challenges of AI in this field. The book takes a closer look at various additional aspects and provides a more comprehensive view of AI in healthcare. The first part provides introductory considerations from a historical, technical, socio-scientific, legal, and ethical perspective. Complementing this, the second part illustrates these topics using various applications in the field of biomedical engineering. These cannot be covered exhaustively, but a broad overview is provided, and the relevant challenges are addressed. Finally, the last part deals with questions relating to the framework conditions, the regulation of AI, and the associated business models. Last but not least, brief introductory statements from the Federal Ministry of Research, Technology, and Space and the DGBMT on the topic of AI in biotechnology and healthcare underscore the relevance of the contributions.

Making Futures Work Phil Balagtas, 2024-06-05 Learn how to get started with Futures Thinking. With this practical guide, Phil Balagtas, founder of the Design Futures Initiative and the global Speculative Futures network, shows you how designers and futurists have made futures work at companies such as Atari, IBM, Apple, Disney, Autodesk, Lufthansa, and McKinsey. Explore Speculative Design to deal with the relationship between science, technology, and humans, and Design Fiction to explore and critique possible futures. Balagtas also shares stories from his journey to build a global community and describes how he works with clients to reshape the futures vocabulary. With this guide, you will learn how to prepare your client team and/or audience for futures, facilitate and work with the fundamental methods and frameworks, gain advocacy and support within your organization, provide measurable value from the process and outcomes, build a futures culture and team, and sustain a culture and support system beyond projects.
