Beyond Material Davorin Kuljasevic,2019-09-20 Giving up material is one of the most difficult decisions a chess player has to take But the reality is that winning a game very often requires you to make that choice The nagging question is always what about my compensation The old school used to relate compensation to correctness A sacrifice was correct if the material was swiftly returned if possible with interest Generations of chess players spent lots of time counting quantifying the static value of their pieces almost by reflex In this book Grandmaster Davorin Kuljasevic teaches you how to look beyond the material balance when you evaluate positions With many instructive fragments he shows how the actual value of your pieces fluctuates during the game depending on many non material factors Some of those factors are space related such as mobility harmony outposts weaknesses structures squares files and diagonals Other factors are related to time and to the way the moves unfold tempo initiative a threat an attack Modern club players need to be able to suppress their need for immediate gratification In order to gain the upper hand you often have to live with uncertain compensation With the help of many fascinating examples Kuljasevic teaches you the essential skill of taking calculated risks After studying *Beyond Material* winning games by sacrificing material will become second nature to you *Masters of Attack* Alexander Raetsky,Maxim Chetverik,2017-12 Three brilliant books from Everyman Chess brought together in one volume *The Masters* Alexander Alekhine *Master of Attack* The Masters Boris Spassky *Master of Initiative* The Masters Mikhail Tal *Tactical Genius* By Alexander Raetsky and Maxim Chetverik What separated Alexander Alekhine from the rest of his contemporaries Why did he dominate the chess world for so long The main reason was undoubtedly his brilliant attacking style of play Alekhine had a combinative gift and thrilled the chess public and influenced every great chess player since Garry Kasparov once said I fell in love with the rich complexity of his ideas at the chessboard Alekhine s attacks came suddenly like destructive thunderstorms that erupted from a clear sky Boris Spassky is a true chess legend a World Champion who thanks to his monumental battles with Bobby Fischer raised the popularity of the game to a level that had never been seen before Although at the height of his powers many saw Spassky as a complete and universal player adept at outplaying his opponents in any type of position it is no secret that from an early age he thrived on sharp attacking play He was a superb practical player and with the initiative at his hands he could conjure up wonderful combinations and deadly attacks Mikhail Tal was simply a chess phenomenon The magician from Riga stunned the chess world when he became the youngest ever World Champion at that time in 1960 and he won countless supporters for his scintillating tactical play and his infectious enthusiasm for the game Tal s dazzling tactical style would often leave his hapless opponents in a state of shell shock As former World Champion Vassily Smyslov once noted

Tal's appearance in chess had the effect of an exploding bomb since his style of play was distinguished by extraordinary combinative brilliance **Modern Art of Attack** Ken Smith,1988 Both authors are chess teachers As they were taught when they were learning their pupils have been schooled with Vladimir Vukovic's *The Art of Attack* Pergamon In the 1950s a new generation emerged starting with the daring play of Mikhail Tal He and his contemporaries are where we begin this book taking the reader through the 1980s Now the author's pupils as well as you have a reference to this exciting era Page 4
