Greenwashed Kevin L. Whitworth, 2025-06-01. What if saving the planet became just another product to buy? In *Greenwashed: The New Religion of Climate Guilt*, the gloves come off. With biting wit, deep research and a healthy dose of skepticism, this book dives into the modern environmental movement, unpacking its dogmas, hypocrisies and unintended consequences. Why are monocropped soy fields considered more sustainable than small, diverse farms? How did carbon, one of life's essential building blocks, become public enemy number one? And when did environmentalism turn into a latte, a biodegradable hanger or a 1,200 sustainable bunkhouse? From carbon credits traded like poker chips on Wall Street to plant-based meats wrapped in plastic and shipped thousands of miles, *Greenwashed* exposes how marketing, fear and virtue signaling have overtaken real solutions. This is not a denial of climate change; it's a challenge to the hollow narratives we're sold in its name. Bold, irreverent and thought-provoking, *Greenwashed* is for anyone who wants to save the planet without losing their mind.
