Richard A. Spires,2023-06-20 *Government Can Deliver* presents a framework for government agency performance
improvement designed to change an inefficient culture and drive operational excellence It outlines how government leaders
can drive such change and most importantly it presents a proven approach for creating an environment that will affect
positive change This framework a set of practical attributes and implementable best practices tailored for government
agencies is based on real world experiences in which government did deliver There are examples in each chapter of agencies
that implemented elements of this framework and the resulting impact on agencies operational performance And while
mainly using examples from large federal government agencies this book can aid those in all levels of government and
differing agency sizes In writing this book Richard endeavored to create a practical guide on transforming government
agencies that can benefit all readers whether you have made government service your life study government as an
academician or student or are simply a concerned citizen After establishing the need for improved government operations
the book presents attributes and best practices for eight solution functions When properly addressed each of these functions
can individually and collectively significantly improve an agency s performance The examples and arguments can help
agency leaders justify implementing the necessary attributes and best practices to improve their agency s performance The
final chapter provides recommendations on how a government agency can develop a transformation plan to incrementally
implement the attributes and best practices for each of these eight functions Richard has seen first hand the amazing things
government agencies can accomplish when they have experienced capable leaders adopt best practices tailored for
government and appropriately leverage technology to support improved operations Change is hard but through government
leaders and employees efforts focused on implementing the right changes agencies can significantly improve their
