AI Prompts Master Guide: 2000+ Ready-to-Use Prompts for Every Creator, Founder & Professional Shreekant Pratap Singh, 2025-11-07 Welcome to the AI revolution powered by your words This book isn't about theory it's about action Inside AI Prompts Master Guide you'll find 2 000 proven prompts that unlock the full potential of tools like ChatGPT Gemini Midjourney Notion Zapier Canva and more helping you create automate and earn like never before Each section of this eBook is designed to make you think act and build faster with AI no coding required What You'll Get Inside 2 000 categorized prompts for content creation marketing design business automation research Step by step templates for writing branding video and presentation generation Prompts to build full workflows in Notion Zapier Make and Google Sheets Real world business monetization and AI education blueprints Bonus section with 50 daily practice prompts 25 free AI tools for 2025 Who This Book Is For Creators Influencers who want to build viral content and boost engagement Entrepreneurs Founders looking to scale with AI powered workflows Students Educators aiming to learn or teach prompt engineering Freelancers Professionals ready to earn online with AI skills Why You Need This AI isn't replacing you it's amplifying you The person who knows how to talk to AI will always stay ahead Each prompt in this guide is like a digital switch turn it on and your ideas become output instantly The era of coding is over The era of prompting has begun Transform your creativity speed up your workflow and join the new class of AI native creators one prompt at a time ABOUT THE AUTHOR Shreekant Pratap Singh Gen AI Subject Matter Expert Founder Director Technosys IT Management Pvt Ltd With 10 years of expertise in Sales Business Development and AI Automation Shreekant has built multiple ventures across technology solar energy marketing and creative production He has trained teams designed lead generation systems and developed AI driven solutions that empower entrepreneurs worldwide Known for his practical easy to apply AI frameworks Shreekant helps individuals and brands turn AI from a tool into a growth engine Blog www.technosysblogs.com *The Beginner's Authority Guide to Making Money Online (2026 Edition)* Sean Graham, 2026-02-08 The Beginner's Authority Guide to Making Money Online 2026 Edition Who This Course Is For This course is designed for people who want to make money online seriously but who are tired of confusion hype and half explanations This includes Absolute beginners with no prior online business experience Employees parents retirees and job switchers seeking income flexibility Solo operators who want a clear system not scattered tactics People who want to build income that can grow stabilize and compound over time You do not need Technical skills A personal brand A large audience Prior business knowledge What you do need is a willingness to follow a structured process and focus on building something real The Problem This Course Solves Most people fail to make money online for one core reason They are taught tools and tactics before understanding systems The internet is full of Contradictory advice Overhyped income claims Fragmented strategies that don't connect Tricks that work temporarily but collapse long term Beginners are pushed to Jump between models too quickly Chase fast money without foundations Copy advanced strategies without context Rely on

platforms they don't control. This creates overwhelm, wasted time, and eventual burnout. This course solves that by giving you one coherent framework that explains how online income actually works. Why certain methods fit certain people. How money flows from attention, trust, systems, assets. How to progress from beginner actions to long-term stability. Instead of guessing, you'll operate with clarity.

The Transformation You Will Achieve: By completing this course, you will move from confusion to structured understanding. From random effort to intentional action. From consuming content to building systems. From chasing income to creating assets. Specifically, you will understand all major online income models and how they connect. Choose a path that fits your time, skills, and life constraints. Build your first functional online income system. Generate your first online income in a realistic, repeatable way. Think like a business operator, not a side hustler. Lay the foundation for income that can grow beyond your time. Even if your income starts small, it will be built correctly.

Why This Approach Works in 2026 and Beyond: The online economy has matured. What worked years ago—short-term hacks, algorithm-chasing, anonymous spam, and single-platform dependence—no longer provides stability. At the same time, new leverage tools such as AI automation and global digital distribution have made it easier than ever for individuals to compete if they understand systems. This course is built around principles that remain valid regardless of platform changes, algorithm updates, AI advancements, or market saturation.
