and Leadership OIHWL addresses human behavior and the impact of lifestyle on the Big Three health outcomes of heart
attack cancer and suicide It weaves together the concepts of resilience physical wellness nutritional wellness mental wellness
and leadership OIHWL s model for behavior change is built using Aristotle s philosophy of responsibility OIHWL is designed
to show the application of the behavioral change model throughout the book The result is a logically consistent and easy to
follow framework that any firefighter can apply to their life and that any fire department can adopt and implement as
education for its members This remains the case even if some or all of the hundreds of citations eventually age out because
the model is true The final chapter presents an objective and thus assessable definition of leadership It aims to displace the
decades of leadership theory that is subjective in nature and often indistinguishable from management theory Just as NFPA
outlines categorically that certain fire apparatus are aerials and not engines there is a way to distinguish categorically
