Robert Morris Jr the graduate student who accidentally crashed the internet in the 1980s and the Bulgarian Dark Avenger who invented the first mutating computer virus engine We also meet a sixteen year old from South Boston who took control of Paris Hilton s cell phone the Russian intelligence officers who sought to take control of a US election and others In telling their stories Shapiro exposes the hackers tool kits and gives fresh answers to vital questions Why is the internet so vulnerable What can we do in response Combining the philosophical adventure of G del Escher Bach with dramatic true crime narrative the result is a lively and original account of the future of hacking espionage and war and of how to live in an era of cybercrime Includes black and white images
