Osborn,2013-09-27 What do you get when you combine an electronics hobbyist hacker garage mechanic kitchen table inventor tinkerer and entrepreneur A maker of course Playful and creative makers are through expertise and experimentation creating art products and processes that change the way we think and interact with the world As you ll see from the 21 interviews in Makers at Work inquisitive makers are just as apt to pick up a laser cutter or an Arduino as a wrench to fashion something new For example you ll meet Jeri Ellsworth who might provide a video lecture on magnetic logic one day and a tutorial on welding a roll bar on a stock car the next You ll also meet Eben Upton who put cheap powerful computing in the hands of everyone with the Raspberry Pi Becky Stern who jazzes up clothing with sensors and LEDs and bunny Huang who knows the ins and outs of the Shenzhen China electronics parts markets as well as anyone As all the interviews in Makers at Work show makers have something in common reverence for our technical past coupled with an aversion to convention If they can t invent new processes or products it s simply not worth doing Crazy as foxes makers working in the spirit of Tesla Wozniak Edison Gates Musk and many others can bring sophisticated products to the people or to the market as fast or faster than large corporations And they are not just enabling new technologies and devices they are changing the way these devices are funded manufactured assembled and delivered Makers at Work puts a spotlight on the maker mindset and motivation of those who are reinventing the world one object or idea at a time You will Meet the individuals who define what it means to be a maker Learn about the tools and technologies driving the new industrial revolution Discover ways to scale your weekend project into a profitable business See how others have used to crowdfunding to make their visions a reality Learn how open source hardware and software is enabling whole new categories of products by removing barriers of entry for inventors The new masters of the Makerverse ask two questions Can it be done Is it fun As these interviews will show the answer to both questions is Let s find out **Animals and Ourselves** Kathy Merlock

Jackson, Kathy Shepherd Stolley, Lisa Lyon Payne, 2020-10-13 The relationship between humans and animals has always been strong symbiotic and complicated. Animals real and fictional have been a mainstay in the arts and entertainment figuring prominently in literature, film, television, social media, and live performances. Increasingly though, people are anthropomorphizing animals, assigning them humanoid roles, tasks, and identities. At the same time, humans such as members of the furry culture or college mascots find pleasure in adopting animal identities and characteristics. This book is the first of its kind to explore these growing phenomena across media. The contributors to this collection represent various disciplines to include the arts, humanities, social sciences, and healthcare. Their essays demonstrate the various ways that human and animal lives are intertwined and constantly evolving.

Promoting Fashion Barbara Graham, Caline Anouti, 2022-12-22 The marketing and promotion of fashion is entering a fast-moving and challenging phase. This book shows how to appeal to the consumer and communicate the brand message. Advertising campaigns, both offline and online, are discussed together with the existing and new methods of PR and promotion. Individual chapters then look at social media, e-commerce, and online fashion retail, personal selling, and offline fashion retail, direct marketing, fashion shows, and sales promotions, plus costing a campaign. These are supported by case studies and interviews with leading professionals.

E-Textiles in Libraries Carli Spina, Helen Lane, 2020-06-15 From light-up scarves to solar-powered backpacks to health-monitoring fabric, innovative combinations of electronics and textiles are becoming more prevalent and impressive all the time, making appearances everywhere from the runway to medical settings. In the near future, these wearable technologies will be a standard part of daily life. E-textiles, including soft circuits, conductive fabrics, and sewable electronics, may not be familiar to all library patrons now, but the way that e-textile projects combine STEM topics with fun, familiar crafts makes them popular for library programs interesting to diverse groups and a great tool for teaching new skills and techniques. Best of all, e-textile projects can be designed to fit into budgets of all sizes and to appeal to patrons of any age and level of technical proficiency. In this book, you will learn everything you need to know about the tools, supplies, techniques, and science behind e-textiles and find out how your library can design successful collections and programs around this hot new topic. The book features key information about the materials and techniques you will need to know, examples of libraries that have found success with e-textiles, step-by-step advice on program creation, and projects that can be used for fun and engaging library programs. By the time you finish reading, you will have everything you need to develop a program that will generate excitement within your community and introduce your patrons to new and useful skills. Keep your library on the cutting edge of technology with exciting and engaging e-textiles programming.
