Gehl,2025 Move Slowly and Build Bridges tells the story of activists software developers artists and everyday people who have built the fediverse a large noncentralized alternative social media system In contrast to big tech corporations like Meta TikTok or X the fediverse is comprised of thousands of small independent communities who use a powerful internet protocol to communicate with one another These small communities can govern themselves and moderate content at the human scale in stark contrast to the global and advertiser friendly interests of Meta or X The Mastodon network is perhaps the most notable and successful platform in the fediverse Founded in 2016 Mastodon has positioned itself as an alternative to Twitter one that can be completely under the control of its members from it to its daily operations to its underlying software Making a noncentralized ethically run social media system is no easy task The people building the fediverse have faced burnout bigotry angry debates and death threats And they face constant nagging doubts can we really do this Can noncentralized social media survive Can we all of us have our own social media In this thoroughly researched book Robert W Gehl argues that the answer is yes but it won t be easy **Gaming Democracy** Adrienne L. Massanari,2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley s emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism **De Necessariis Observantiis Scaccarii Dialogus Commonly Called Dialogus de Scaccario.
