Cooper, 2023-10-15 *The Czech Manuscripts* is dedicated to one of the most important literary forgeries on the model of Macpherson's Ossianic poetry The Queen's Court and Green Mountain Manuscripts discovered in 1817 and 1818 went on to play an outsized role in the Czech National Revival functioning as founding texts of the national mythology and serving as sacred works in the long period when they were considered genuine A successful literary forgery tells a lot about what a culture wants and needs at a particular moment One fascinating aspect of this story is how a successful fake was able to function in an integral way as part of the Czech cultural revival of the nineteenth century both because it played to expectations and nationalist values and because it met real cultural needs in many ways better than genuine historical literary works and artefacts Also fascinating is the vainglorious Vclav Hanka a prolific and dedicated forger who was likely the center of the conspiratorial ring that created the manuscripts and who went on as the librarian of the Czech National

Museum to alter a number of others David Cooper analyzes what made the Manuscripts a convincing imitation of their Serbian and Russian models He looks at how translation shaped their composition and at the benefit of examining them as pseudotranslations and investigates the quasi religious rituals and commemorative practices that developed around them The Czech Manuscripts brings the Czech experience into the broader developments of European history

The Grammar of Hate Natalia Knoblock, 2022-07-14 Hate speech continues to be an issue of key social significance yet while its lexical and discursive aspects have been widely studied its grammatical traits have been hitherto overlooked This book seeks to address this gap by bringing together a global team of scholars to explore the morphosyntactic features of hateful and aggressive discourse Drawing on thirteen diverse cross linguistic case studies it reveals how hate is expressed in political discourse slang and social media and towards a range of target groups relating to gender sexual orientation and ethnic identity Based on ideas from functional and cognitive linguistics each thematic part demonstrates how features such as morphology word formation pronoun use and syntactic structures are manipulated for the purpose of expressing hostility and hate An innovative approach to an age old problem this book is essential reading for researchers and students of hate speech and verbal aggression
