Mammals of Africa Jonathan Kingdon, David Happold, Thomas Butynski, Michael Hoffmann, Meredith Happold, Jan Kalina, 2013-05-23 *Mammals of Africa MoA* is a series of six volumes which describes in detail every currently recognized species of African land mammal. This is the first time that such extensive coverage has ever been attempted and the volumes incorporate the very latest information and detailed discussion of the morphology, distribution, biology and evolution, including reference to fossil and molecular data of Africa's mammals. With 1 160 species and 16 orders, Africa has the greatest diversity and abundance of mammals in the world. The reasons for this and the mechanisms behind their evolution are given special attention in the series. Each volume follows the same format with detailed profiles of every species and higher taxa. The series includes some 660 colour illustrations by Jonathan Kingdon and his many drawings highlight details of morphology and behaviour of the species concerned. Diagrams, schematic details and line drawings of skulls and jaws are by Jonathan Kingdon and Meredith Happold. Every species also includes a detailed distribution map. Extensive references alert readers to more detailed information. Volume I: Introductory Chapters and Afrotheria 352 pages. Volume II: Primates 560 pages. Volume III: Rodents, Hares and Rabbits 784 pages. Volume IV: Hedgehogs, Shrews and Bats 800 pages. Volume V: Carnivores, Pangolins, Equids and Rhinoceroses 560 pages. [Directory of Canadian Universities](#), 2002 *Mammals of Africa: Volume V* Jonathan Kingdon, 2014-11-20. A major new series of handbooks. **The M.S.C. Record**, 1920 **Zoologist**, 1869 **Lost Land of the Dodo** Anthony Cheke, Julian P. Hume, 2009-01-01. A now familiar emblem of extinction, the Dodo was extinct within 60 years of the colonisation of Mauritius and over the next 150 years most of the Mascarene's other native vertebrates followed suit. *Lost Land of the Dodo* provides the definitive account of this tragic yet remarkable fauna. **Bulletin of Michigan State College of Agriculture and Applied Science** Michigan State College, 1941 *South African Journal of Science*, 1990 *Immigrant Gone to Heaven* Kees Vermeer, 2021-03-25. *Immigrant Gone to Heaven* is a remarkable book. It grips the reader from the moment the author joins an Emigration Training Centre in the Biesbosch region of the Netherlands with the goal of moving to Canada. We follow his experiences as he lands in Canada and works his way up from farm hand to obtaining a doctorate in Zoology. The section of the book detailing his explorations in ornithology are as fascinating as the stories of immigration and the memories of World War II. The book takes the reader on a riveting journey of exploration in many facets of social history and science as viewed through the lens of an inquisitive and always optimistic upbeat man. I strongly recommend this book to anyone interested in learning more about World War II immigration, bird behavior or even just in how a life's journey can unfold with all its unexpected twists and turns. Tom Bijvoet, Publisher DUTCH the Magazine, Maandblad de krant. Brimming with charming personal anecdotes and fascinating ornithological research in equal measure, Kees Vermeer's *Immigrant Gone to Heaven* paints a vivid picture of an adventurous and fearless life. Vermeer's curiosity and insight into the natural world are evident.
