*Exploring the Grassroots Practice of Rural Revitalization* Tuan Yang, Jianjin Liu, Zhihui Tong, 2024-12-13 This book shows six cases of rural grassroots cadres and masses exploring the implementation of the rural revitalization strategy These cases show the problems encountered in the work of rural leaders and the ideas to solve contradictions policy and reality individual and collective reveal the importance of organization governance and talent building in rural development and emphasize that promoting rural revitalization must empower the village collective and require the active participation of all sectors of society This work can be used as a reference book for grassroots cadres rural revitalization workers the public professional researchers and teachers and students of colleges and universities to deeply understand the grassroots practical exploration and theoretical thinking and research of rural revitalization

*The Measure of Progress* Diane Coyle, 2025-04-01 Why do we use eighty year old metrics to understand today s economy The ways that statisticians and governments measure the economy were developed in the 1940s when the urgent economic problems were entirely different from those of today In *The Measure of Progress* Diane Coyle argues that the framework underpinning today s economic statistics is so outdated that it functions as a distorting lens or even a set of blinkers When policymakers rely on such an antiquated conceptual tool how can they measure understand and respond with any precision to what is happening in today s digital economy Coyle makes the case for a new framework one that takes into consideration current economic realities Coyle explains why economic statistics matter They are essential for guiding better economic policies they involve questions of freedom justice life and death Governments use statistics that affect people s lives in ways large and small The metrics for economic growth were developed when a lack of physical rather than natural capital was the binding constraint on growth intangible value was less important and the pressing economic policy challenge was managing demand rather than supply Today s challenges are different Growth in living standards in rich economies has slowed despite remarkable innovation particularly in digital technologies As a result politics is contentious and democracy strained Coyle argues that to understand the current economy we need different data collected in a different framework of categories and definitions and she offers some suggestions about what this would entail Only with a new approach to measurement will we be able to achieve the right kind of growth for the benefit of all
