

Loan Repayment Schedules

When it comes time to repay your Federal Direct Student Loan, you will need to select a repayment plan. There are several repayment plans: standard, extended, graduated, income contingent, income based, and pay-as-you-earn. How much you pay and how long you take to repay your loans will vary depending on the repayment plan you choose. Consolidation loans also have varying repayment plans.

The following link will take you to the U.S. Department of Education's Direct Loan "Calculators and Interest Rates" webpage where you can estimate your repayment amounts under each of these different plans.

<http://www.direct.ed.gov/calc.html>

The following sample repayment chart can be used to estimate your loan repayment under the standard repayment plan. It is for estimating purposes only.

National Audit Office - Department for Business, Innovation and Skills: Student Loan Repayments - HC 818 Great Britain: National Audit Office,2013-11-28 Until the Department for Business Innovation and Skills BIS has a robust strategy for maximizing the collection performance of student loans and improves its information on borrowers it will not be well placed to secure value for money BIS forecasts that the total value of outstanding student loans will increase from 46 billion in 2013 to approximately 200 billion by 2042 in 2013 prices The number of borrowers due to repay is projected to increase from 3 million in 2012 13 to 6 5 million by 2042 The loan book is therefore becoming a substantial public asset BIS and its collection partners HM Revenue Customs and the Student Loans Company SLC work together in a joined up way In 2012 13 they collected 1 4 billion in student loan repayments at a cost of 27m BIS needs to make better use of data to support its collection strategy and improve its understanding of where it could invest to maximise the collection value of the loan book In designing how student loans would work BIS anticipated that a proportion of the loans would not be repaid However BIS has not set an annual target for the amount to be collected because repayments are affected by graduate earnings and economic factors outside its direct control Annual repayment forecasts are consistently higher than amounts collected While many borrowers may not be in employment BIS and the SLC have carried out little analysis to establish how many may be working overseas or the level of repayments that may be missed Student Loan Funds Harmon Foundation,1924 **Annual Financial Report of the State of Hawaii for the Fiscal Year Ended June 30...** Hawaii.
