[The Web's Greatest Hits](#) Lynie Arden,2005 *The Hollywood Jim Crow* Maryann Erigha,2019-02-05 The story of racial hierarchy in the American film industry The OscarsSoWhite campaign and the content of the leaked Sony emails which revealed among many other things that a powerful Hollywood insider didn t believe that Denzel Washington could open a western genre film provide glaring evidence that the opportunities for people of color in Hollywood are limited In *The Hollywood Jim Crow* Maryann Erigha tells the story of inequality looking at the practices and biases that limit the production and circulation of movies directed by racial minorities She examines over 1 300

contemporary films specifically focusing on directors to show the key elements at work in maintaining the Hollywood Jim Crow Unlike the Jim Crow era where ideas about innate racial inferiority and superiority were the grounds for segregation Hollywood's version tries to use economic and cultural explanations to justify the underrepresentation and stigmatization of Black filmmakers Erigha exposes the key elements at work in maintaining Hollywood's racial hierarchy namely the relationship between genre and race the ghettoization of Black directors to black films and how Blackness is perceived by the Hollywood producers and studios who decide what gets made and who gets to make it Erigha questions the notion that increased representation of African Americans behind the camera is the sole answer to the racial inequality gap Instead she suggests focusing on the obstacles to integration for African American film directors Hollywood movies have an expansive reach and exert tremendous power in the national and global production distribution and exhibition of popular culture The Hollywood Jim Crow fully dissects the racial inequality embedded in this industry looking at alternative ways for African Americans to find success in Hollywood and suggesting how they can band together to forge their own career paths

Broadcast/cable Programming Susan Tyler Eastman,1993 This widely used text over 250 adoptions offers a current strategies approach to broadcast and cable programming with network local and commercial noncommercial perspectives It focuses on three primary responsibilities of programming executives 1 evaluating audiences and programs 2 selecting programs and 3 scheduling or organizing programs into coherent program services The book is divided into five major sections Part One introduces the concepts and vocabulary for understanding the remaining chapters Parts Two through Five look at programming strategy respectively for television cable radio and public broadcasting from the perspective of industry programming experts

Stochastic Models, Statistics and Their Applications Ansgar Steland, Ewaryst Rafajłowicz, Ostap Okhrin,2019-10-15 This volume presents selected and peer reviewed contributions from the 14th Workshop on Stochastic Models Statistics and Their Applications held in Dresden Germany on March 6 8 2019 Addressing the needs of theoretical and applied researchers alike the contributions provide an overview of the latest advances and trends in the areas of mathematical statistics and applied probability and their applications to high dimensional statistics econometrics and time series analysis statistics for stochastic processes statistical machine learning big data and data science random matrix theory quality control change point analysis and detection finance copulas survival analysis and reliability sequential experiments empirical processes and microsimulations As the book demonstrates stochastic models and related statistical procedures and algorithms are essential to more comprehensively understanding and solving present day problems arising in e.g the natural sciences machine learning data science engineering image analysis genetics econometrics and finance

Anatomy of the Movies David Pirie,1981 A look at the inner workings of the movie industry power structures personalities finances and the process by which successful films reach the screen
