Islamic Finance as a Complex System Haider Ali Khan, Karamo N.M. Sonko, 2020-07-24 There has been a rapid increase in the interest in the study of Islamic finance resulting in a dramatic rise in financing since the beginning of the century. By the end of 2017 global industry assets had reached 2.4 trillion and were forecasted to reach 3.2 trillion by 2020 despite historic challenges to Islam itself at the same time. This collection of chapters provides key theoretical, empirical, and policy insights into Islamic finance from an overall complex financial and economic systems perspective. Within the complex financial and economic systems framework, this book addresses questions such as how to conceptualize Islamic financial institutions in a nonlinear general equilibrium system, how to promote Islamic Finance in Africa, how Islamic is Islamic finance, and how it affects price stability among other topics. The book provides case studies in Africa and Asia, addresses the subject in a structural financial CGE model, demonstrates the development impact of Islamic finance, and presents an Islamic version of the Iceland Plan for Monetary Reform.

Islamic finance qualification ,2007      *The Islamic Banking and Finance Workbook* Brian Kettell, 2011-08-15 The ongoing turbulence in the global financial markets has drawn attention to an alternative system of financial intermediation: Islamic banking and finance. This is now one of the fastest growing sectors within the market place and has so far remained on the sidelines of this unrest. Since the inception of Islamic banking thirty years ago, the number and reach of Islamic financial institutions worldwide has risen significantly. Institutions offering Islamic financial services constitute a significant and growing share of the financial system in several countries, and market participants everywhere are joining the race to study and be a part of this emerging financial system. The Islamic Banking and Finance Workbook is a one-of-a-kind workbook on the topic, enabling readers to test their understanding of Islamic banking and finance concepts. Although suitable as a standalone learning tool, the book is designed to test the information covered in the companion book *Introduction to Islamic Finance and Banking* and covers the fundamentals of Sharia law, the Islamic contracts, interpretations, and definitions: Murabaha, Mudaraba, Musharaka, Istisna'a, Salam, and Ijara, modes of finance: Takaful, and much more. Emphasis is placed on mini case studies, multiple choice questions, and tests of the basic concepts. It also includes a full answer key and brief chapter summaries, as well as learning objectives. The Islamic Banking and Finance Workbook is an essential learning tool for students and practitioners who want to test their knowledge of the rapidly growing
